1. GENERAL DESCRIPTION

○ What is Mintos?

Mintos established a global online marketplace for investing in loans in 2015. Through the Platform, which is owned and operated by Mintos, Mintos provides investors with convenient means to invest in loans made by various lending companies around the world.

At the end of March 2022, over 470,000 investors had registered with Mintos. Mintos worked with more than 62 lending companies from 31 countries, offering investment opportunities in 6 currencies.

Since Mintos was founded, investors have invested in loans totalling more than EUR 8 billion. Mintos has become an essential player in the alternative investment market in Europe with around 45% of market share¹.

Mintos is authorised as an investment firm by the FCMC. See the section entitled '6. Mintos' of this Base Prospectus for more information.

○ What are Notes?

Notes are financial instruments issued by the Issuer via Mintos to Investors, which allows Investors to invest in Loans issued by the Lending Company to Borrowers.

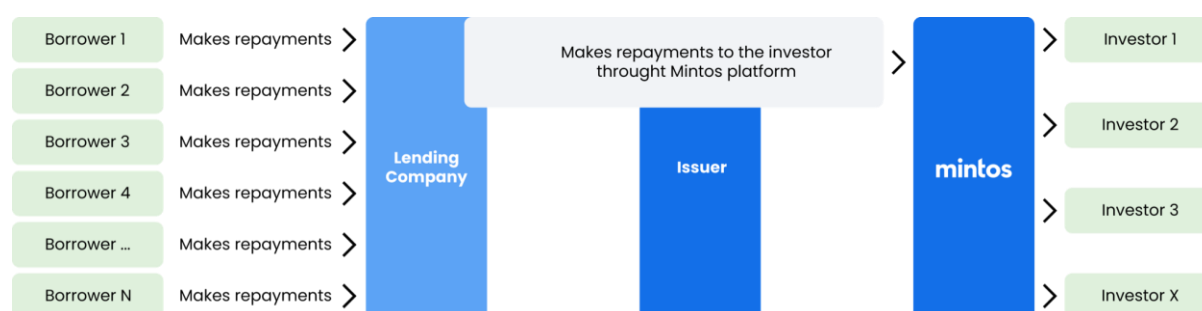

The Issuer is a special purpose legal entity established for the purposes of:

- purchasing Loan Receivables from the Lending Company;
- pooling those Loan Receivables for a particular Series of Notes; and
- issuing those Notes to Investors via Mintos.

See the sections entitled '5. THE ISSUER' and '7. THE LENDING COMPANY' of this Base Prospectus for more information.

○ The flow of funds for repayment

Each time a Borrower makes repayments to the Lending Company, the Lending Company transfers the funds to the Issuer, which in turn makes repayments under the relevant Series of Notes to the relevant Investor via Mintos. The repayments are received into the relevant Investment Account.

This means that if the Borrower makes:

- the repayments to the Lending Company later than scheduled, the repayments to the Investor will also be correspondingly delayed; and

¹ www.altfi.com/article/7146_state-of-the-market-european-alternative-lending-near-doubled-in-2019

- no repayments at all and the Lending Company is not able to recover anything from the Borrower, no repayments will be received by the Investor.

The Lending Company may provide a Buyback Obligation for Loan Receivables, which means that if any repayment by the Borrower is delayed by more than 60 days, the Lending Company is obliged to repay the Loan Receivables together with any interest. In this situation, the Investor will be exposed to the credit risk of the Lending Company. See section entitled '2. RISK FACTORS – RISKS SPECIFIC TO LOAN SERVICING – Insolvency of the Lending Company'.

- *The flow of funds for investment*

The Lending Company issues Loans to Borrowers, and then sells the relevant Loan Receivables to the Issuer. The Issuer issues a Series of Notes corresponding to these Loan Receivables to Investors via Mintos. When an Investor purchases any Note of the Series, the Investment Accounts are credited with the Note and debited with the purchase price of the Note. The purchase price is transferred to the Lending Company.

2. RISK FACTORS

The Issuer believes that the following factors may affect its ability to fulfil its obligations under the Notes. All of these risk factors and events are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring. In addition, factors which are material for the purpose of assessing the market risks associated with the Notes are also described below.

Although the most material risk factors have been presented first within each category, the order in which the remaining risks are presented is not necessarily an indication of the likelihood of the risks materialising, the potential significance of the risks or the scope of any potential negative impact to the Issuer's or the Lending Company's business, financial condition, results of operations and prospects. The Issuer and/or the Lending Company may face a number of these risks described below simultaneously. While the risk factors below have been divided into categories, some risk factors could belong in more than one category and prospective investors should carefully consider all of the risk factors set out in this section.

The Issuer believes that the factors described below represent the material risks inherent to investing in the Notes, but the inability of the Issuer or the Lending Company to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons and the statements below regarding the risks of investing in any Notes are not exhaustive. Other risks, events, facts or circumstances not included in this Base Prospectus, not presently known to the Issuer, or that the Issuer at the date of this Base Prospectus deems to be immaterial could, individually or cumulatively, prove to be important and may have a significant negative impact on the Issuer's or the Lending Company's business, financial condition, results of operations and prospects. Prospective investors should carefully review the entire Base Prospectus and should form their own views before making an investment decision with respect to the Notes.

Before making an investment decision with respect to any Notes, prospective investors should consult their own lawyer, accountant or other financial, legal and tax advisers and carefully review the risks entailed by an investment in the Notes and consider such an investment decision in the light of the prospective investor's personal circumstances.

○ **RISKS SPECIFIC TO THE UNDERLYING LOANS**

1. The Borrowers may not make payments according to the agreed schedule or may default on their obligations altogether

The Notes are linked to the pool of underlying Loan Receivables, which means that if any of the Borrowers do not make a payment on time, then the Noteholder will also not receive a payment on time. For example, if a Borrower makes a repayment a week later than the agreed schedule, the Noteholder will also receive the repayment a week later. Furthermore, if a Borrower makes no repayment at all and the Lending Company is not able to recover anything from the Borrower, the Noteholder will also not receive any further repayments unless, if applicable, the Loan is sold with the Buyback Obligation.

The Lending Company may decide to offer additional compensation to the Noteholder in the form of interest income on delayed payments or penalty income. A Loan Agreement with the Borrower may contain a grace period, which is a period immediately after a scheduled payment date during which a late fee is waived provided that the obligation is satisfied during the grace period. Interest income on delayed payments and penalty income would not be paid to the Noteholder for the grace period.

The Lending Company also has the option to offer the Loan Receivable with the feature of Buyback Obligation which means that the Lending Company is obligated to repurchase the Loan Receivables if the Borrower has failed to pay more than 60 days after the scheduled repayment date. While this feature could reduce the potential loss for the Noteholder due to the Borrower failing to make repayments, the Buyback Obligation is only as strong as the company providing this obligation. If the Lending Company fails to honour its obligation, the Noteholder is still exposed to the risk of the underlying Borrower not making repayments.

While the probability of any Borrower missing repayments or defaulting depends on many factors, such as payment amount, the income of the Borrower, and repayment term, it is important to point out that these probabilities are never zero. Due to this, the Notes are only suitable investments for Investors who have the appropriate knowledge and experience and are in a financial situation that allows them to lose part or even all of the money invested in Notes.

Overall, a Borrower not making repayments in full, or defaulting could be caused by a variety of factors, including, but not limited to:

- **The Borrower overestimates its ability to repay** - each Borrower should evaluate its current and future financial position itself and assess its ability to repay. For various reasons, the Borrower could overestimate its future cash flows and borrow more than it will be able to repay.
- **Limitations of initial risk scoring** - the Lending Company has developed its own method for scoring customer credit risk that relies on various information, which can be collected also from other parties than the Lending Company (e.g., credit rating agencies). There is a risk that the information could be wrong or outdated, or that the scoring method is not sufficient.
- **Unexpected events** - reasons why the Borrower could miss a repayment, include loss of employment, a delay in receiving expected income, unexpected costs, or even disability or death.
- **Macroeconomic factors** - the credit risk scoring of the Lending Company makes assumptions about the client's ability to repay during normal economic conditions. A sudden change in macroeconomic factors could significantly impact the Borrower's ability to make repayments.
- **Other liabilities** - the underlying Loans that are linked to the Note usually do not restrict the Borrower from incurring additional unsecured or secured debt. Additional debt may adversely affect the Borrower's creditworthiness and could result in financial distress, insolvency or bankruptcy of the Borrower.
- **Loan issued in a different currency than the Borrower's income** - in some cases, the Loan that has been issued to the Borrower is in a different currency than the currency in which the Borrower earns income. Significant changes in the exchange rates or a local currency devaluation could impact the Borrower's ability to make repayments.

2. It may not be possible to recover the full principal and interest owed by the Borrowers, thus the Noteholder may not receive back its invested amount

While any recoveries from a Borrower are limited to the value of Borrower's assets (if any),

some jurisdictions may, set a lower limit that creditors may claim from the Borrower or define a list of the estate which is not allowed to be alienated for recovery purposes, thus reducing the maximum amount that could be covered from the Borrower.

The underlying Loans that are linked to the Note do not restrict the Borrowers from incurring additional unsecured or secured debt. This means that if the Loan is not secured by an asset and any funds from the Borrower are available for recovery, these funds could be allocated to various creditors, i.e., not only the Lending Company, but also other persons that the Borrower owns money to, such as local tax agency, state authorities, other lending companies and utility companies.

If the Loan is secured by an asset, the proceeds from the sale of the asset would be allocated proportionally to the Noteholders of the same Series and all other creditors whose receivables are secured by that asset (unless another allocation order applies under applicable law). In addition, the pledged asset (e.g., car, property) might lose its value and could be sold for an amount that is less than the amount due to the Noteholder, or the asset could be stolen, hidden, alienated, missing or damaged. There is also a risk that any pledge securing the Borrower's obligations under the Loan Agreement may become invalid or unenforceable due to a number of reasons, including, but not limited to, cases when legal relations arising from the loan documents are recategorized by the court of law, mistakes and omissions are made and/or due procedures are not followed when the pledge is formed. In that case, the obligations of the Borrower would become unsecured, and the credit risk significantly increases.

There could also be the case, especially where the amount of the Loan is low, that the expected collection and recovery costs might be higher than the debt itself, which means the collection and recovery is not economically reasonable, thus it would not be pursued.

In addition, the Loan Agreement may, for a variety of reasons, be challenged and thus the ability of the Lending Company to exercise its rights under the Loan Agreement may be delayed or otherwise hindered for an undefined term. The reasons for challenging the Loan Agreement could include errors in agreements, electronic form of agreement (while the legal form requirement might be met in principle by such electronic signature, its value as evidence in court proceedings in some jurisdictions could be less compared to an actual signature made by hand on a physical document), compliance with regulations, such as consumer protection laws, as well as borrower identify fraud cases.

Due to the reasons described above the Noteholder may experience delayed repayments or partial or full loss of the amount invested in Notes.

3. The Borrower may repay the Loan early

A Borrower may repay all or a portion of the remaining principal amount at any time without penalty. This may happen, for example, in cases where the Borrower can acquire lower cost financing from other sources and wishes to refinance the Loan. The Loan Agreement might also be terminated or cancelled in advance by the Lending Company, triggering the early repayment of the amounts due by the Borrower without penalty. While the Noteholder may invest the repaid money elsewhere, the return on the investments could be lower than the initially planned return.

4. The Borrower may face difficulties to repay the Loan in advance

A Borrower may breach the Loan Agreement, for example, the Borrower takes out additional loans without permission from the Lending Company or alienates the collateral, and the Lending

Company can therefore require early Loan repayment in full. A Borrower may lack necessary financial resources to make such advance payment, so this could lead to Borrower's debt restructuring or debt collection and result in the Noteholder experiencing delayed repayments or partial or full loss of invested amount under Notes.

- **RISKS SPECIFIC TO LOAN SERVICING**

1. The Lending Company is not able to continue Loan servicing

Various factors can negatively impact the Lending Company's ability to provide Loan servicing, which in turn could lead to delayed repayments to the Noteholder or even partial or full loss of the invested amount. Some of the factors are:

- **Loss-making operations** - The Lending Company may experience losses due to various business events and factors, such as intense competition, higher than expected cost of client acquisition, high recovery costs, unexpected costs, reduction in the portfolio sizes, changes in local regulation with regards to new Loans and management errors.
- **Macro-environmental factors** - Various macro-environmental factors, such as recession, military conflict, natural disasters or pandemic, could significantly increase the non-performing Loans ratio.
- **Freezing, seizing or closing of the Lending Company's operational bank account** - The account that the Lending Company uses for operations might be seized, blocked, or closed for a number of reasons, including anti-money laundering and know your client breaches, sanctions violations, state authorities' arbitrary actions, or insolvency of a bank or payments services provider. Inability to use the bank account could restrict the Lending Company's ability to collect Borrowers' repayments and transfer funds to the Issuer for an indefinite time, or even lead to insolvency or bankruptcy of the Lending Company.
- **Currency control restrictions or lack of corresponding banks chain** - The local government could introduce certain currency control restrictions, leading to a situation where the Lending Company is not able to make payments in foreign currency and/or to the beneficiary that is a foreign entity and/or to an account in a foreign financial institution. Alternatively, corresponding bank relations of a bank or payments services provider which maintains the Lending Company's operational accounts could be dramatically amended or terminated, eliminating the Lending Company's ability to make payments towards the Issuer. This may negatively affect payments to the Issuer and thus further distributions to the Noteholder.
- **Changes in local regulation with regards to Loans already issued** - A legislative body of the country where the Lending Company operates could introduce a Borrowers' moratorium (a legally authorised period of delay in the performance of a legal obligation or the repayment of a debt) or even full or partial debt (including interest and penalties) release.
- **Foreign exchange positions mismatch** - Quite often Loans are issued and are being repaid in one currency, but Notes promise repayments to Noteholders in another currency, for example, a Loan has been issued to a Borrower in The South African rand (ZAR), but the Investor invests in a Note denominated in euros. If such Loans make up a large amount of the total portfolio, and local currency devalues and the Lending

Company has not properly hedged this risk, the Lending Company is subject to foreign exchange positions mismatch risk, leading to significant losses for the Lending Company and its inability to pay amounts due to the Issuer.

- **Other or sole funding sources** - Besides Mintos, the Lending Company may use other sources of funding, such as a bank credit line, corporate bonds issues, private equity or public shares offerings. In some situations, such as an economic downturn, it could be difficult for the Lending Company to attract funding from other sources to refinance the existing liabilities, thus leading to a liquidity crisis that could lead to the Lending Company having difficulties continuing operations. Furthermore, if the Lending Company uses the Platform as a major funding source and a significant number of investors decide to suddenly avoid investing in Notes corresponding to the Loans, the consequences can be the same.
- **Loss of the Lending Company's licence/authorization** - Provision of lending services require a company to receive special approval/authorization. Licences can be revoked or otherwise lost for a number of reasons. Loss of a licence can negatively affect the Lending Company's ability to continue its operations and service the existing Loans.

2. No Backup Servicer may be available for servicing the underlying Loans if the Lending Company is not able to continue Loan servicing

One of the key roles of the Lending Company with respect to the Notes is to provide Loan servicing. There might be no backup servicer that could be appointed to take over the servicing from the Lending Company if needed. If there is an event of default or other circumstance that disrupts the due servicing of the Loans and administration of the Borrowers' debts by the Lending Company and if at the time no backup solution for Loan servicing exists, the timeline and volumes of repayments could be significantly impacted, leading to a partial or full loss of amounts invested in Notes.

3. The Lending Company may intentionally or unintentionally breach its contractual obligations

There is a risk that the Lending Company performs actions that are in violation of the Transaction Documents, including the risk of fraud against the Issuer and Mintos, resulting in the partial or full loss of amounts invested in Notes. Contractual breaches that may happen include, but are not limited to:

- **Loan Receivables sold to the Issuer are or will be pledged to other creditors** - According to the Transaction Documents, to which the Lending Company is a party, the Loan Receivables underlying Notes must not be pledged to any creditors. If the Lending Company intentionally or unintentionally pledges the specific Loan Receivables sold to the Issuer to other creditors, the Noteholder could lose some or all the invested funds if the Lending Company defaults or becomes insolvent.
- **False or incomplete information about the Lending Company** - All information in this Base Prospectus about and/or related to the Lending Company has been provided and certified by the Lending Company as actual, true, and complete. Material errors or omission of such information could initially affect the decision of the Noteholder to invest in a particular Note and eventually result in a negative outcome of the investment.

- **False Borrower data** - The Lending Company provides Mintos with information about the Loan status, the Borrowers, repayment schedules, repayments, extensions of the underlying Loans or changes to the Loan Agreements. While Mintos regularly asks the Lending Company to provide scanned copies of the documents as evidence for randomly selected Loans, Mintos does not check and verify all Loans backing the Notes. There is a risk that the Lending Company intentionally or unintentionally has provided wrong information to Mintos or fails to provide information to Mintos at all, and as a result, the payments under the Notes could be impacted.
- **The Lending Company stops cooperation with Mintos** - The Lending Company could for some reason suddenly stop cooperating with Mintos. This could mean not honouring its obligations under the existing agreements, including the Transaction Documents and breach of their provisions. The Lending Company could stop making payments to the Issuer, which means the Issuer would not be able to make payments to the Noteholder. The Lending Company might also stop providing Mintos with the necessary information or providing the information with significant delays.

4. **Insolvency of the Lending Company**

Insolvency, bankruptcy or other similar adverse events may significantly influence or even dismiss the ability of the Lending Company to service issued Loans and to execute the undertaken Buyback Obligation and Repurchase towards the Issuer. This means that if the Lending Company experiences significant problems, the Lending Company may not be able to transfer the underlying Loan repayments from the Borrower or make payments of buyback price or repurchase price to the Issuer which would mean that the Issuer would not be able to make payments to the Noteholder.

The Lending Company may be required to continue to treat the Loan Receivables as assets of the Lending Company from an accounting perspective. Reflection or recognition of the Loan Receivables sold to the Issuer as the Lending Company's balance sheet assets if insolvency proceedings are initiated, may lead to the receiver or the administrator not recognising the Issuer's title over the Loan Receivable sold to it. In this case, the Issuer would need to take legal actions to protect its interests in the Loan Receivables. The Issuer may have to prove to the administrator, receiver and/or other parties that the Loan Receivables and the Borrower payments towards them are not to be included in the assets of the Lending Company that are available for the general pool of creditors. Should the Loan Receivables be treated as assets of the Lending Company that are available for the general pool of creditors and not of the Issuer, the Issuer might be treated as an unsecured creditor of the Lending Company and it may then be entitled to receive only a portion of all distributions available to the unsecured creditors of the same class, and this portion of distributions may be not enough to cover the indebtedness towards the Issuer partially or in full.

In case of insolvency, an administrator usually is bound to consider which past transactions of the insolvent company must be contested and which sold assets or transferred funds have to be clawed back. There is a risk that the administrator of the Lending Company takes action to claw back to the Lending Company estate the Loan Receivables sold to the Issuer or amounts paid to the Issuer. The Issuer would then have to take legal actions to protect its interests in the Loan Receivables and the Borrower payments and argue against the position of the administrator in judicial proceedings, which could be long and costly, and no assurance could be made of its successful outcome.

The Transaction Documents allow Mintos to appoint a backup servicer, who would take over the servicing of the Loan Receivables in case of insolvency or bankruptcy of the Lending

Company. The enforcement of rights under contracts might not result in recoveries for the Noteholder in a swift manner, and the recovery might be affected by lengthy and costly legal proceedings.

Eventually, the Noteholder may experience delayed repayments or partial or full loss of invested amount under Notes.

5. The Lending Company's IT systems may fail or may be breached

IT systems are a crucial part of all financial services companies and if they are impacted, that could affect the Lending Company's ability to provide financial services to its customers and exchange information with Mintos. This could also result in loss or distortion of significant information and databases that are crucial for sound cooperation between the Lending Company, the Issuer and Mintos, including for Notes issue servicing and administration.

Since IT systems play such a crucial role in the Lending Company's operation, the Lending Company typically devotes a substantial number of resources to ensure stable and uninterrupted performance of the IT systems. Neither the Issuer nor Mintos audits the Lending Company's IT systems and thus cannot ensure their soundness.

○ RISKS SPECIFIC TO GUARANTEES AND PLEDGES WHEN THOSE ARE PROVIDED TO THE ISSUER

1. The Guarantors or pledgor may not honour their obligations

There might be a Guarantee Agreements, or a pledge provided to secure the obligations of the Lending Company towards the Issuer.

If there are the Guarantee Agreements, the Guarantors would be expected to pay the due amount if the Lending Company fails to pay when due. As there is a risk of any party not honouring its obligations under a contract, there is a risk that the Guarantors do not honour their obligations under the Guarantee Agreements. If this happens, the Issuer may take legal action against the Guarantors. There is a risk that the enforcement of rights under the Guarantee Agreements does not result in recoveries for the Issuer, and by extension for the Noteholder, in the anticipated amount, or that the recovery might be affected by lengthy and costly legal proceedings.

If there is a pledge, the pledgor would be expected to allow the Issuer to enforce its pledge by taking over the object of the pledge or putting it up for sale. The procedure for enforcing the rights of the pledge are defined by law in the country of the pledge. There is a risk that the pledged assets might lose their value and could be sold for an amount that is less than the amount due to the Issuer or the asset could be stolen, hidden, alienated, missing or damaged. There is a risk, as with any pledge/security, that it is or becomes unenforceable or invalid (see 'The guarantee or pledge may become invalid or unenforceable' below).

2. The Guarantors or pledgor may default

The risk of default, for example, insolvency, is a risk that is present for any counterparty, the Guarantors or the pledgor included.

If the Guarantors default, the Issuer cannot rely on receiving funds from the Guarantors even if the Issuer decides to take legal action to recover due amounts from the Guarantors in or outside of the insolvency or bankruptcy proceedings. If the Guarantors default, the Issuer might terminate cooperation with the Lending Company and request that the Lending Company

repurchase all the Loan Receivables before the term.

If the pledgor defaults, as a general rule the pledge should not be affected, and the pledgee should be able to exercise its rights of pledge (to take over the pledge or to put it up for sale and receive all proceeds from the sale to cover the payments due from the Lending Company). However, the Issuer may decide to terminate cooperation with the Lending Company and request that the Lending Company repurchase all Loan Receivables before their term.

3. The guarantee or pledge may become invalid or unenforceable

There is a risk that guarantees or pledges securing the Lending Company obligations towards the Issuer may become invalid or unenforceable for several reasons, including, but not limited to cases when legal relations arising from the Transaction Documents are recategorised by the court of law, mistakes and omissions are made and/or due procedures not being followed when guarantees or pledges are formed. In that case, the obligations of the Lending Company towards the Issuer defined by the Transaction Documents become unsecured and the credit risk significantly increases, and that may trigger the Issuer terminating cooperation with the Lending Company and requesting repurchase by the Lending Company of all the Loan Receivables before their term. If there is no guarantee to enforce and no pledge to enforce against, then the Issuer is left with the Lending Company as the only debtor party from which to expect the payment of monies due from the Lending Company.

○ RISKS SPECIFIC TO MINTOS

1. Various events and failures could cause situations where Mintos is not able to continue operations

As a relatively new service, Mintos operates in a complex and dynamic regulatory and competitive environment and various events and failures could lead to Mintos terminating the provisioning of services, including the operations of the Platform. These events include but are not limited to revocation of licence, weak financial performance, negative reputation, non-compliance events, dramatic changes in the applicable regulations impacting Mintos operating model or an economic downturn. If Mintos ceases operations, this could significantly impact the Noteholder's ability to receive repayment on time.

Should Mintos enter liquidation or insolvency, as a regulated and supervised entity, the process will be supervised by the FCMC. The appointed liquidator or administrator will take over the functions of the management board. Mintos will continue servicing its clients and the Investment Accounts, and relevant financial instruments portfolios in line with what Mintos is permitted to do according to the applicable insolvency and liquidation rules. The process from the moment of the appointment would be led by the appointed administrator or liquidator. In some cases, the Investors' Protection Law may apply. Such processes may significantly influence the investment's return times and make the return more complex to the Noteholder.

Furthermore, Mintos could for some reason suddenly stop honouring its obligations under the existing agreements, leading to delayed payments or partial or full loss of the amount invested in the Notes.

2. Non-compliance with regulations could lead to revocation of Mintos' licence

To provide services to clients, Mintos, as the operator of the Platform, has received an investment firm licence from the FCMC. The licence could be suspended or revoked due to non-compliance with regulations by Mintos. Loss of licence by Mintos could lead to delayed

payments or partial or full loss of invested amount under the Notes.

3. Failure of IT systems or a security breach could lead to significant liabilities and harm relationships with customers

The technology that Mintos has developed over the years is a cornerstone of Mintos' future success. The satisfactory performance, reliability and availability of the Platform is critical to its operations, customer service and reputation.

While Mintos has taken steps to protect confidential information, the techniques used to obtain unauthorised, improper, or illegal access to systems, data, or customer data, or to disable or degrade services are constantly evolving and may not be detected quickly.

As a result, Mintos' and Mintos' third-party vendor security measures might be breached, and these security breaches could result in confidential client information being stolen. Breaches of security measures because of third-party action, employee error, third-party vendor error, design flaws in the software, or interruptions in Mintos' systems and services could adversely impact our relationships with Mintos' clients, harm Mintos' reputation and expose Mintos to significant liability.

Furthermore, in the event of damage or interruption, existing insurance policies may not adequately compensate Mintos and Mintos' clients for any losses that may have been incurred. Nevertheless, as IT systems are crucial to Mintos' operations, a substantial amount of resources are devoted to ensuring the stable and uninterrupted performance of the IT systems.

4. Mintos' bank accounts could be frozen or closed and banks, where the Noteholder funds are held, can become insolvent

Mintos clients' funds, including the fund being deposited in the Issuer's Account for settlement under the Notes, are kept segregated from Mintos' own funds in several bank accounts marked as client funds accounts.

One or several of those bank accounts that Mintos uses might be blocked, seized or closed for a number of reasons, including insolvency of the banks, resulting in interruptions of fund transfers to the Lending Company and the Noteholder.

5. Significant problem or termination of the agreement with a Mintos partner may affect the provision of services to the clients

While providing its services, Mintos relies on several carefully selected partners (e.g., cloud computing providers), and any problems with the service providers could impact Mintos' ability to provide services to the Noteholder. Mintos has taken several steps to reduce the likelihood and impact of such occurrences, such as having backup service providers where feasible, but there is still a risk that the Noteholder may not be able to access the Platform or receive services.

6. Certain situations or actions may raise conflicts of interests

While the rights and the responsibilities of Mintos, the Issuer, the Lending Company are detailed in the Transaction Documents and this Base Prospectus, and Mintos has established policies and procedures to mitigate the risk, it is not possible to fully avoid the possibility of a conflict of interests between the parties that could impact the interests of the Noteholder.

While Mintos provides placement services to the Issuer with respect to the Notes, Mintos also

provides the infrastructure services for the Lending Company and the Issuer to perform sales of the Loan Receivables to the Issuer, as well as to exercise the Buyback Obligations and Repurchases. Mintos receives fees from the Lending Company for placement services. Mintos has carefully set up the fees in a compliant manner and so that it would not violate the conflict of interest management rules. Such placement fees might qualify as inducements and Mintos would disclose information on these inducements to the Noteholder. In addition to inducement disclosures, Mintos has set up internal procedures to identify and manage conflicts of interest. Some conflicts of interest require disclosure and those are disclosed.

- ***RISKS SPECIFIC TO THE ISSUER***

1. The Issuer could default on its obligations or become insolvent

The Issuer is a wholly-owned Mintos Group company, and not engaged in any business activities other than those provided in this Base Prospectus. There is a risk that the Issuer could suddenly stop effectively honouring its obligations under the existing agreements and breaching its provisions, resulting in missing repayments to the Noteholder. This could lead to delays in repayments and partial or full loss of invested amounts.

While the Issuer is created, established and performs its operations as a special purpose undertaking, due to possible legal shortcomings of the applicable law and/or judicial practice, the Issuer might be found insolvent due to the following reasons, including, but not limited to, a Noteholder or other creditor initiating the insolvency procedure against the Issuer in bad faith and the court not finding limited recourse and non-petition provisions defined by this Base Prospectus as a sufficient ground to reject such proceeding. In such situations, the Noteholder could experience delays in receiving its invested funds and its priority as a creditor of the Issuer might be changed by the rule of law, leading to receiving fewer amounts than due under the Notes.

The Terms and Conditions of the Notes (in section 10 of this Base Prospectus) are set up and drafted as having legal force and addressing concerns as legally binding contractual obligations. There can be external circumstances that might influence such legal construction, including, but not limited to court ruling, and/or new or modified legal enactments.

2. Mintos may not be able to cover the maintenance and administrative costs of the Issuer

Considering the pass-through nature of the Issuer, the maintenance costs and administrative expenses of the Issuer are, in essence, covered by the Lending Company, either via direct compensation mechanism or indirectly via Mintos. If for any reason mentioned above in '*RISKS SPECIFIC TO MINTOS*', Mintos is not able to cover such costs, it could significantly influence the operations of the Issuer and its ability to service Notes and make payments to the Noteholder.

3. Information asymmetry

With a reference to risks described above in 'The Lending Company may intentionally or unintentionally breach its contractual obligations - False or incomplete information about the Lending Company' and '-False Borrower data', part of the information in this Base Prospectus as well as significant information being received during the term of the Notes is being sourced and received from the Lending Company. There is a risk that the Lending company can provide material information with delay or fail to provide information to the Issuer at all. As a consequence:

- the Issuer through Mintos acting as its authorised representative will not be able to timely enforce its rights provided in the Transaction Documents and to act in the interests of Noteholders; and
- the Issuer will not be able to prepare and publish supplements to this Base Prospectus in a timely manner, which could impact the Noteholders' judgement on purchasing the Notes being unaware of any significant new factor, material mistake or inaccuracy related to the information being sourced from the Lending Company.

4. Cross-risks applicable to the Issuer

Considering the pass-through nature of the Issuer, the Issuer and its abilities to pay amounts due to the Noteholders under the Note are exposed to all the risks listed above in '*RISKS SPECIFIC TO THE UNDERLYING LOAN*', '*RISKS SPECIFIC TO LOAN SERVICING*', '*RISKS SPECIFIC TO GUARANTEES AND PLEDGES WHEN THOSE ARE PROVIDED TO THE ISSUER*' and '*RISKS SPECIFIC TO MINTOS*'.

○ RISKS SPECIFIC TO NOTES

1. The Noteholder has no rights of recourse against the Borrowers, the Lending Company, the Guarantors or the pledgor

The Noteholder has no direct right to the Loan Receivables. Instead, the Noteholder is acquiring Notes, which are backed by the corresponding Loan Receivables. The legal title in the Loan Receivables and relevant rights arising from them are vested in the Issuer. This means that the Noteholder will have no direct recourse against the Borrowers and no ability to independently and in its discretion to pursue any Borrower to collect payments under the relevant Loan. For the same reason the Noteholder will have no direct recourse against the Lending Company, the Guarantors and/or the pledgor, and no ability to pursue the Lending Company, the Guarantors and/or the pledgor to enforce them to duly perform their duties and obligations due. All such actions are carried out by the Issuer as the legal owner of the Loan Receivables according to the provisions of this Base Prospectus and the Transaction Documents.

2. Change of creditors priority

The outcome of judicial or insolvency procedure could overrule the creditors' priority in this Base Prospectus due to requirements of the law, meaning that the Noteholders of one Series of Notes could become equal creditors to Noteholders of other Series of Notes, thus all the proceeds the Issuer receives from all the Loan Receivables is distributed on *pro rata* basis or otherwise.

3. Certain costs may rank higher than payments to the Noteholder

While it is the Issuer's responsibility to transfer to the Noteholder all payments that have been received from the Lending Company, including the payments from the Borrowers received by the Lending Company, there are certain costs, such as taxes, Mintos' fees and recovery costs that rank higher than payments to the Noteholder. This means that the Noteholder would only receive payment after the payment obligations of a higher priority have been settled.

Also, there is a risk that the outcome of judicial or insolvency procedure could define other priority of payments, which differ from the priority in this Base Prospectus.

4. Liabilities that are not Series specific will be allocated to all Series of Notes proportionally

If there are higher priority costs, i.e., taxes, fees and recovery costs, related to the specific Note, then these will be covered from the payments due to the Noteholders according to the Priority of Payments defined in this Base Prospectus. Where the liability is not Series-specific, for example, legal costs, the liability will be allocated to all Series of Notes proportionally unless otherwise defined by the Priority of Payments.

5. Event of default under another prospectus affecting Noteholders of this one

The Issuer has or could in future enter into transactional documentation to issue loans' backed and contingent notes with other lending companies, being part of the Finclusion group.

If for some reason an event of default arises under another prospectus, it can lead to an event of default under this Base Prospectus, and as a consequence Noteholders can face similar risks as described in the paragraph 2, 3 and 4 of the RISKS SPECIFIC TO THE NOTES, for example, the outcome of judicial or insolvency procedure could overrule the creditors' priority due to requirements of the law, meaning that the noteholders under other prospectus could be treated *pari passu* with other unsecured creditors of the Issuer, including with the Noteholders of Notes issued under this Base Prospectus, and/or could define other priority of payments, which differs from the priority in this Base Prospectus, meaning that proceeds received from the Lending Company which otherwise would be attributable to Series Specific Loans could be diverted to make payments with respect to other prospectuses of the Issuer and/or with respect to such proceedings.

6. Due diligence and monitoring performed by Mintos and risk score allocated are limited in scope, do not address all material risks, and do not provide any assurance or indemnification

Before the Lending Company joins Mintos and during the cooperation, Mintos carries out due diligence and assigns a Mintos risk score. It is important to point out that these processes are limited in scope and do not address all material risks relating to an investment in the Notes, but rather reflect the view of Mintos at the time the due diligence and monitoring are performed.

Even if Mintos continuously measures the accuracy of the Mintos risk score and evaluates the need to adjust the methodology when new data is obtained, these processes might not guarantee any further performance of the investment.

Mintos neither provides any assurance or guarantee for the Noteholder nor indemnifies or holds Noteholder harmless for any loss or adverse consequence directly or indirectly arising from the Noteholder relying upon the risk score or due diligence and monitoring performed. Basing investment decisions solely on the Mintos risk score could lead to a partial or full loss of invested amounts.

7. No specific securitisation laws in Latvia

There are no dedicated laws and regime in Latvia addressing specific special purpose vehicle issuer insolvency or limited recourse concepts. Mintos believes the Terms and Conditions of the Notes are set up and drafted as having legal force and addressing such concerns as legally binding contractual obligations. There might be circumstances that influence such legal construction, including, but not limited to the court ruling, or new or modified legal enactments. Eventually, this could lead to delayed payments, or partial or full loss of the amount invested in

the Notes.

8. Repurchase could impact planned return

The Lending Company may repurchase the Loan Receivables from the Issuer at any time at their then outstanding principal value without any penalty or other compensation. This may happen, for example, in cases where the Lending Company can acquire lower cost financing from other sources and wishes to refinance the Loan.

The Lending Company not only has a right to repurchase, but also has an obligation to repurchase the Loan Receivables from the Issuer upon the occurrence of certain events specified in the Cooperation Agreement. The Lending Company may become obliged to repurchase one or several affected Loan Receivables, as well as certain events that may trigger the obligation to repurchase all the Loan Receivables. Occurrence of a Material Event of Default under the Cooperation Agreement triggers the obligation to repurchase all the Loan Receivables.

If the repurchase right is exercised by the Lending Company or if the repurchase obligation arises, the relevant Series of Notes will be redeemed early in full or in part once the Issuer has received the repurchase price from the Lending Company. The Noteholder's return on the investments in the Notes which are redeemed due to the repurchase will be lower than the initially planned return.

9. New regulations introduced in the future could impact the Noteholder and Mintos

Due to several reasons, such as improvements in computer technology, the financial crisis of the past decade and a greater focus on preventing the legalisation of illegally gained proceeds, the financial industry over the last years has experienced the introduction of several new regulations. With further developments and adoption of technologies, jurisdictions, either where Noteholders or Mintos Group are domiciled, are likely to introduce new regulations or administrative interventions that could relate to Notes or online marketplaces such as the Platform. Such regulation in the future, for example, could enhance investors' protection measures, limit access to Notes to only qualified or sophisticated Noteholders, limit the proportion of the portfolio that can be invested through Notes or introduce any other restricting measures.

Furthermore, the introduction of new regulations or significant changes to the existing regulations could impact the profitability, cost base and future operations of Mintos. Failure to comply with regulation could lead to, among other things, lawsuits, administrative enforcement actions, penalties, and revocation of licences and authorisations. Eventually, this could lead to delayed payments or partial or full loss of invested amounts under Notes.

10. New regulation in relation to taxes could impact the expected return for the Noteholder

If new regulation is introduced, or existing regulation or its interpretation changes so that the Issuer and/or Mintos needs to withhold additional taxes before making payments to the Noteholder, and the Issuer and/or Mintos is required to withhold any transfer tax, stamp duty and/or financial transactions tax, this could impact the expected return on investment for the Noteholder. Similar developments in the Noteholders' tax residence country can lead to the same consequences.

11. Notes have limited liquidity and transferability

The Notes are illiquid securities and there is no active market for them, and the Notes are not admitted to any trading venue. The potential buyers and transferees are limited only to other Mintos' clients who are registered on the Platform. Which all means that the Noteholder might need to offer the Notes with a significant discount and hence would not meet the expected return on the investment, or might even be unable to sell them at all during a shorter or longer period of time. Furthermore, to protect Noteholders that use automatic investment solutions from making investment decisions, Mintos may restrict the execution of orders to sell the Notes according to the terms and conditions of the agreements between the Investors and Mintos.

The Noteholder should therefore only invest in Notes that the Noteholder is comfortable with holding to maturity.

12. An undiversified investment portfolio may lead to greater exposure to the Lending Company and country-specific risks than a well-diversified portfolio

Investment in a single Note, Notes issued in relation to the Lending Company or Notes with underlying Loans related to one country, means that the performance of the portfolio and risk exposure depends on that Note, the Lending Company, country and currency risk.

Mintos encourages its customers to build a well-diversified portfolio and provides several tools to automate investing in Notes, making this easier.

13. Investing in Notes issued in other currencies increases the Noteholder's exposure to currency risk

If a Noteholder invests in Notes denominated in a currency that is different from the currency that the Noteholder earns and/or spends, the return on the investment could be significantly impacted by the fluctuations in the exchange rate between those currencies. This means that if the underlying currency depreciates significantly, the Noteholder could lose part of the investment, and if the currency appreciates significantly, the Noteholder could earn a higher return on investment.

14. Notes are not bank deposits

Investment in Notes does not have the status of a bank deposit in Latvia or elsewhere and is not within the scope of the deposit protection or guarantee scheme operated by the Republic of Latvia or any other jurisdiction.

Where third party information has been used in this Base Prospectus, the source of such information has been identified. Statistical information included in this Base Prospectus has been derived from official public sources, including the statistical releases. 4. TRANSACTION OVERVIEW

○ THE DESCRIPTION OF THE TRANSACTIONS IN RELATION TO THE NOTES

▪ The Issuer, Mintos and the Lending Company

The Issuer, Mintos and the Lending Company have entered into the Transaction Documents for the issue and sale of the Notes as described in this Base Prospectus.

▪ Transfer of the Loan Receivables by the Lending Company to the Issuer

The Lending Company makes, from time to time, an irrevocable offer to sell the Loan Receivables by using the API connection setup with Mintos.

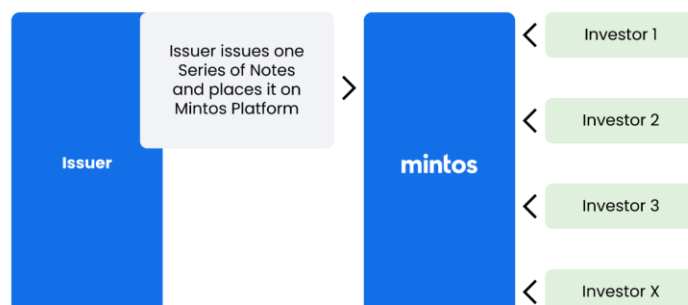

The offer for sale of the Loan Receivable is accepted, on behalf of the Issuer, by Mintos generating the Transfer Document. Mintos verifies the information provided through the API. The Loan Receivables are required to meet certain eligibility criteria to form a 'pool' of Loan Receivables to serve as the underlying assets for a particular Series of Notes and to satisfy other conditions precedent.

Payment for the acquired Loan Receivable is subject to placement of the Series of Notes.

That means the Loan Receivables transferred to the Issuer and backing the Series have characteristics that demonstrate capacity to produce funds to service any payments due and payable on the Notes. The Lending Company retains in relation to each Loan the 'skin in the game' in keeping 5% of the principal amount outstanding.

The Borrowers are not notified of the transfer of the Loan Receivables. The Lending Company continues to service the Loan Receivables.

- **Issue of Notes**

Once the Issuer has a pool of the Loan Receivables, Mintos publishes the Final Terms for the relevant Series of Notes on the Platform on behalf of the Issuer. This process is automated and takes place in real-time.

As of the Issue Date, the Notes are publicly offered by the Issuer through the Platform. Investors can purchase Notes from the Issue Date until the Maturity Date of the Notes provided in the Final Terms or until the time when the Notes are fully sold to Investors by the Issuer, whichever occurs earlier. Information about the offer results of the Notes is published on the website www.mintos.com in real time starting from the Issue Date of the Notes. Subscriptions will not be reduced, which means refund of amounts paid in excess does not apply. The Issuer does not expect any conditions to which offer of the Notes would be subject.

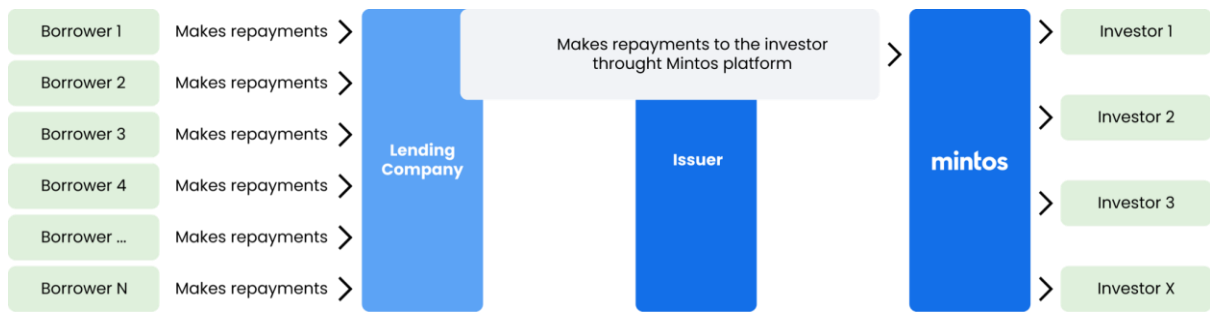

To purchase Notes from the Issuer, the Investor registered on the Platform submits an investment order using the “Primary market” section of the Platform, indicating the amount of money that the Investor wishes to invest in particular Notes. The Investor can also use automated portfolio management services provided by Mintos to purchase the Notes. The process for purchasing Notes is automated and takes place in real-time. When the investment order is accepted by the Platform, Mintos debits cash funds from the Investor’s cash account with Mintos in exchange for delivery of the Notes to the Investor’s financial instruments account with Mintos. Paying for the Notes and delivery of the Notes take place simultaneously. The Notes allotted are available as soon as the investment order is executed by Mintos, by means of the Investor’s profile on the Platform. Further alienation of Notes could be done as soon as available on the Investor’s Investment Accounts.

Minimum subscription amount is one Note. Maximum subscription amount is up to the Aggregate Nominal Amount for the relevant Series of Notes, but subject to the nominal amount of the Notes being available for purchase from the Issuer as at execution time of the investment order at Mintos.

No expenses are expected to be charged to the Investor by the Issuer when purchasing Notes. Currently there is no financial transaction tax to be applied by the Issuer and/or Mintos to the Investor in subscribing or purchasing any Note.

The Issuer expects that net proceeds of any Series of Notes will equal the Aggregate Nominal Amount of the relevant Series.

▪ Payments under the Notes

Interest specified in the Final Terms will begin to be calculated and accrue from (and including) the first day when the Investor has acquired the Notes from the Issuer and the Notes are booked by Mintos in the Investor's financial instruments account.

The Interest and principal payments under the Notes are linked and contingent on corresponding payment being made under the pool of the underlying Loan Receivables. Notes may have different payments which reflect the different Loans issued by the Lending Company, such as:

- fully amortising Notes – the principal amount outstanding of the Notes and interest are regularly paid during the term of the Notes so that the principal amount outstanding of the Notes is zero at maturity of the Notes;
- partially amortising Notes (or 'balloon' Notes) – the principal amount outstanding of the Notes and interest are regularly paid during the term of the Notes but, a 'balloon' of principal amount outstanding of the Notes remains which is paid at maturity of the Notes;
- interest only Notes – only the interest is regularly paid during the term of the Notes, whilst the principal amount outstanding of the Notes is paid at maturity of the Notes; and
- bullet Notes - both the principal value outstanding of the Notes and interest are paid at the maturity of the Notes.

▪ The Buyback Obligation

The Buyback Obligation is the obligation, if any payment under any of the relevant Loans is delayed by more than 60 days, for the Lending Company to repurchase the relevant Loan Receivables from the Issuer, provided that the Buyback Obligation is stated as being applicable in the Final Terms.

If the Buyback Obligation is triggered, the relevant Series of Notes will be redeemed early in part once the Issuer has received the buyback price from the Lending Company. The buyback price is the nominal value of the Loan Receivable as it is at the time when the Buyback Obligation arose, which means the nominal value of the principal outstanding and the interest and other ancillary claims assigned to the Issuer that form part of the Loan Receivable up to the date when the Buyback Obligation was triggered.

▪ Repurchase

Repurchase is the right or obligation for the Lending Company to repurchase the Loan Receivable(s) from the Issuer on the occurrence of certain events specified in the Cooperation Agreement.

The Repurchase rights the Lending Company may exercise at any time with respect to any Loan Receivable(s). The repurchase price is the nominal value of the Loan Receivable, which means the nominal value of the principal outstanding and the interest and other ancillary claims assigned to the Issuer that form part of the Loan Receivable up to the date when the Repurchase right was exercised, as it is at the time when the Repurchase right was exercised.

If during the validity of the Cooperation Agreement the Lending Company exercises its rights to repurchase individual Loan Receivables of performing loans (loans that are not delayed by the Borrower), the Lending Company shall be obliged to repurchase the same amount of the Loan Receivables on non-performing loans with a delay of 1 to 59 days (if any) and on non-performing loans with a delay of 60 and more days (if any). Namely, if the Lending Company repurchases 10% (ten per cent) of the Loan Receivables on performing loans, the Lending Company shall be obliged to repurchase 10% (ten per cent) of the Loan Receivables on non-performing loans with a delay of 1 to 59 days and 10% (ten per cent) of the Loan Receivables on non-performing loans with a delay of 60 and more days. The Loan Receivables of non-performing loans subject to the repurchase are randomly selected by the Lending Company at its own discretion. If the Lending Company fails to repurchase the Loan Receivables of non-performing loans as per this clause, Mintos shall randomly select the Loan Receivables on non-performing loans subject to the repurchase by the Lending Company.

The Repurchase obligation arises either with respect to one or several Loan Receivables or it may as well arise with respect to all Loan Receivables.

Individual affected Loan Receivable(s) must be repurchased by the Lending Company according to the Cooperation Agreement if the following occurs:

- (a) termination by the Lending Company of a Loan Agreement from which the Loan Receivable arises;
- (b) in case any of the following events occur:
 - if the Loan Agreement from which the respective individual Loan Receivable arises is or shall for any reason and by any means become invalid or unenforceable whether in whole or in part or it becomes impossible or unlawful for any party to any such document to perform its obligations under such documents; or
 - if, in the reasonable opinion of Mintos and/or the Issuer and/or the Lending Company, the Borrower's fraud or fraudulent misrepresentation has been established;
- (c) with respect to the affected Loan Receivable that is determined in the sole discretion of Mintos, in case if any of the following events occur:
 - if certain representations or warranties of the Lending Company provided in the Cooperation Agreement with respect to the Loan Receivable is or proves to have been untrue when made or deemed to be made;
 - if a breach of an obligation of the Lending Company to comply with certain restrictions on amendments to the Loan Agreements are not complied with or if the Lending Company breaches its duties as a servicer of the Loan Receivables; or
 - if it is or becomes unlawful for the Lending Company to assign or offer the assignment of any new Loan Receivables according to the laws applicable to the Lending Company and/or Loan Receivables and/or to perform any of its obligations under the Cooperation Agreement in relation to the assignment or servicing of the Loan Receivable, for example in case of loss of licence by the Lending Company which affects the already executed assignments or servicing of the Loan Receivables (i.e. having a retroactive effect).

The above might not be a precise wording of the Cooperation Agreement provisions, however even if the wording is different the description of the essence remains correct.

In case a Material Event of Default under the Cooperation Agreement has occurred (see paragraph: THE TRANSACTION DOCUMENTS - The Cooperation Agreement - Material Events of Default), Mintos is entitled to request the Lending Company to repurchase all the Loan Receivables transferred to the Issuer. Mintos has the discretion to request or not to request the repurchase of all the Loan Receivables. If the full repurchase is requested, repurchase obligation must be met by way of paying the repurchase price within the time period, which in most cases is 5 (five) Business Days, but may be set as a longer period of time up to no more than 6 months, after the notice has been given to the Lending Company

regarding the repurchase and the final calculation of the amounts payable is sent to the Lending Company.

The repurchase price for the Loan Receivable which the Lending Company is obliged to pay to the Issuer for the Repurchase of the Loan Receivable is equal to the total amount of the remaining principal amount of the Loan Receivable and accumulated and outstanding interest, and other ancillary claims assigned to the Issuer that form part of the Loan Receivable up to the date when the Repurchase was triggered.

If Repurchase rights or obligation is triggered, the relevant Series of Notes will be redeemed early in full or in part once the Issuer has received the repurchase price from the Lending Company.

Subject to certain terms and conditions, the Issuer may, by notice to the Lending Company and Mintos terminate the appointment of the Lending Company as the servicer and appoint another person as the servicer of the Loan Receivables.

The Lending Company may modify any of the Loan Agreements without approval of the Issuer, provided that payments from the relevant Borrower remain unchanged.

Each of the Issuer, the Lending Company and Mintos has indemnified the others against any and all losses suffered by or incurred by the others arising out of or resulting from its breach under the Cooperation Agreement.

Material Events of Default

The Cooperation Agreement contains an exhaustive list of events that constitute Material Events of Default. Material Events of Default under the Cooperation Agreement include events like:

- (a) non-payment by the Lending Company under the Cooperation Agreement;
- (b) the Lending Company non-compliance with the adjusted equity ratio set in the Cooperation Agreement;
- (c) events with respect to various other obligations: failure to fulfil some other obligations of the Cooperation Agreement; occurrence of a material event of default under other obligations referred to in the Cooperation Agreement;

The above is not a precise wording of the Cooperation Agreement provisions on the Material Event of Default, it is just a description of their essence.

Whether to exercise any or all of the above rights that Mintos has if any Material Event of Default occurs, is a decision that Mintos makes, acting as an authorised representative of the Issuer in its best interests. It may be that even if a Material Event of Default has occurred, it may be cured or does not negatively affect the ability of the Lending Company to comply with its obligations under the Cooperation Agreement, or there are other legitimate reasons why Mintos should not exercise the said rights, and thus none of the said rights are exercised.

7. THE LENDING COMPANY

○ Business overview

The Lending Company has been operating in South Africa since 2014 as a provider of affordable unsecured credit financing to lower-middle living class customers across the nation. The Lending Company was acquired by the Finclusion Group at the end of 2019, and successfully underwent a substantial turnaround preparing the entity for growth. This included a loan book quality review – and a repositioning of the Lending Company’s asset mix. Under the current management, the business has taken a significant amount of corrective action on the loan portfolio by reshaping its credit risk approach, the loan process, and its position in the market. As a result, the Lending Company has managed to reduce its non-performing loan (NPL) rate in 2021.

Following the restructuring and subsequent re-branding, the Lending Company re-focused its offering to provide a fully inclusive employee financial wellness offering. Partnering with employers across South Africa, the Lending Company has developed a fully integrated distribution network, which enables them to provide earned wage access as well as personal and education loans directly to their clients. The platform has recently expanded to include debt counselling and consolidation services to target, rehabilitate and onboard clients with an over-indebted staff base. Assisting users in resolving their over-indebtedness, backlisting or legal judgments through tailored financial products. This, in combination with financial education and budgeting tools, round off the Lending Company’s direct offering, ensuring that it issues loans in a fair and socially responsible manner. The Lending Company’s experience, technology and responsible approach are what sets it apart. Since its inception, it has looked to leverage financial technology solutions to optimise processes.

Finclusion Group enhances the Lending Company’s offering through a set of complementary financial technology verticals. This strategy significantly enhances the lifetime value of each customer, allowing it to pass some of the benefits onto the Lending Company’s customers in the form of cost savings. The Lending Company’s financial wellness offering includes a range of personal insurance and credit life insurance products, both supplied by the Lending Company’s subsidiaries.

The Lending Company’s management has built the current operation with scale in mind, and as such, it is not profitable at the existing loan book size. The Lending Company aims to grow the gross loan book to \$15.7m by December 2022, at a constant annual growth rate of 29.1% thereafter to \$26.17m by 2024. The additional capital will provide the financial resources needed to drive loan book growth at a minimal marginal cost. The Lending Company’s current capacity has limited the number of large corporations that it has been able to bring on to the Lending Company’s platform. The Lending Company will continue to target similar corporations and employee groups for the scale they provide, allowing it to tailor a service offering specific to their needs. Looking forward, the Lending Company will continue to aggressively build out the employer partnership network, with their employees’ access to Lending Company’s financial wellness solutions driving loan book and revenue growth. The Lending Company sees SmartAdvance as the platform that ties together its fintech ecosystem. The Group is looking to fully integrate its free-payroll SaaS (Software-as-a-Service) offering, retail credit and debt counselling services to join its insurance

For a more detailed description of the business activities, including key strengths and strategy please refer to Section 9 “GUARANTORS”.

The Lending Company (whether as a defendant or otherwise) is not and has not been involved in any governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the Lending Company is aware) in the 12 months preceding the date of this Base Prospectus which may have, or have in such period had, a significant effect on the financial position or profitability of the Lending Company.

- **Loans issuance process**

The Lending Company enhances product offering through a set of complementary financial technology systems, including a mobile lending app Smartadvance deploys automated rule-based affordability models to assess credit applications.

The steps in the loan product underwriting process include, in order: (i) borrower application for a financing product, (ii) borrower registration and identification, (iii) risk assessment, fraud checking and scoring with respect to the borrower and (iv) agreement on and issuance of the financing product.

- **Loans underwriting**

The underwriting process is automated to the maximum possible extent. The issuance policy sets a detailed process overview including business "hard" rules (e.g., age limits, eligible customers, salary, indebtedness levels), fraud rules and scoring and affordability models for decision making.

During the Loan application processing, the preliminary data in each application are cross-checked and supplemented. If needed, the potential borrower is asked for further information, preliminary fraud, sanctions, blacklist and KYC list checks are performed. During the Loan application processing, the most important steps are the verification of the potential borrower's eligibility for the Lending Company's financing, based on the information related to the borrower's financial, economic and reputational information. Affordability is calculated using the latest three payslip information, maximum total loan repayment not exceeding 30% from monthly net salary. After these steps are successfully completed, the potential borrower receives an offer.

During the risk assessment and scoring evaluation stages, internal and external credit databases are checked, potential borrower's income information analysed, customer indebtedness calculated and evaluated. The internally developed scoring tool, while taking into account parameters designed for each local market and being in compliance with local regulatory and industry requirements, gives a clear score that enables an informed credit granting decision. With the increase of the loan portfolio, the scoring models are updated with newly available data.

- **Loans issuance and disbursement**

After the loan documentation and direct debit/collections mandate is signed, loan disbursements are processed automatically, using the borrower's bank account, where the client's salary is deposited.

- **Debt recovery management**

The Lending Company has established an efficient and effective debt collection process. It has customer support and collection teams, which follow debt collection practices that are fully compliant with local regulations. The Lending Company uses an internally developed system for performing loans. In-house and external debt collection practices are used. The strategy is focused on maximising the dialogue with customers. When it is assessed that a customer cannot repay its loan, it offers various options and tailors the offers to such customers:

- Before a loan becomes overdue, the Lending Company has a reminder process that ensures that the client is aware of the upcoming payment and payment details. All bank transfers are completed online and reminder emails and invoices are automatically processed and sent to a borrower.
- Collection process starts when the payment is 1 day overdue, and each loan is assigned to employees according to internal guidelines. Employee is responsible for contacting the borrower (emails, text messages or calls), reminding them to settle their outstanding balances and/or agreeing on a date to pay the debt, setting the follow up date and solving any other issues (i.e. if a borrower claims that the payment has been done). Payment plan is created manually and then the system follows up on it. Also fraudulent activities are investigated and in case of any, the Compliance department is involved.
- If an account exceeds 120+ days in arrears the client is blacklisted and handed over to external debt collection company
- If an account exceeds 180+days, the Lending Company typically looks to sell the NPL, depending on the offer price in the market

8. THE LOANS

○ Legal nature, jurisdiction and the applicable law of the Loans

The underlying Loans are issued under the loan agreement which consists of the Loan Application, the Pre-Agreement Statement and Quotation and the Terms and Conditions (hereinafter - Loan agreement).

The Loans are unsecured loans made under the Loan Agreement.

Prior to the disbursement of the Loan, the Borrower must submit a Loan Application and agree to the terms and conditions set out in the Pre-Agreement Statement and Quotation which are an integral part of the Loan Agreement.

The Loan Agreement comes into force once the Loan is disbursed to the Borrower into the Borrower's bank account, wallet or to a third party chosen by the Borrower in the Pre-Agreement Statement and Quotation.

The interest rate is fixed for the full period of the Loan Agreement. The Lending Company is entitled to charge interest daily. Interest will be added to the deferred amount (capital amount) once a month.

In case the Borrower is delayed with the payments under the Loan Agreement, the Lending Company is entitled to charge additional interest, being arrears of interest, at the fixed rate established in the Pre-Agreement Statement and Quotation. In such a case, the total amount of interest, service fees and credit life insurance premiums will be increased as well.

The Lending Company, subject to National Credit Act 34 of 2005, is entitled to charge and capitalise any charges, including, without limitation, service fees, credit insurance premiums, default administration charges and collection costs.

If the Borrower is in default, the Lending Company may accelerate payment of all outstanding amounts due or payable under the Loan Agreement and/ or terminate the Loan Agreement.

In order to protect the risks of Borrower's payment inability in case of disability/death, the Lending Company requires life insurance cover for the Loan. The premium may be paid either separately by the Borrower or included in the Loan.

The Loan Agreement is subject to the amendment and/or variation from time to time as provided in the section entitled '4. TRANSACTION OVERVIEW – *THE TRANSACTION DOCUMENTS* – Extensions of this Base Prospectus.

The Loan Agreement is in the English language. The Lending Company has provided the Loan Agreement for informational purposes at www.mintos.com.

The Loan Agreement is governed by the laws and regulations of South Africa.

○ Repayment and maturity

Repayment of the Loan is made at the frequency described in the Pre-Agreement Statement and Quotation either by means of direct salary deduction from the Borrower's salary, or direct debit order, on the Borrower's pay day. The weighted average annual percentage rate (APR) is 55%. The term ranges from 3 months to 36 months with the average term being 16 months.

The first instalment under the Loan Agreement is due on the first salary date occurring after the Loan is paid to the Borrower. All other instalments (other than the first instalment) shall become due and payable on the date on which the Borrower's salary is paid to the Borrower by the Borrower's employer. In case the Borrower is delayed with the payments under the Loan Agreement, the Lending Company is entitled to charge additional interest, being arrears of interest, at the fixed rate established in the Pre-

Agreement Statement and Quotation. In such a case, the total amount of interest, service fees and credit life insurance premiums will be increased as well.

The Borrower may pay any amount owing to the Lending Company in terms of the Loan Agreement prior to the due date and without notice or penalty. The Borrower may settle the Agreement early by paying the settlement amount. The Borrower may terminate the credit agreement at any time by paying the settlement amount to the Lending Company.

If the Borrower does not pay all instalments on the due dates, the Lending Company is entitled to extend the term of the Loan Agreement to collect any outstanding amounts and may during this extended term, charge the Borrower with monthly service fees and credit insurance premiums.

- **Economic environment in South Africa**

COVID-19 (coronavirus) is having a major impact on South Africa's economy. The World Bank estimates that the economy contracted by 7% in 2020, as the pandemic weighed heavily on both external demand and domestic activity as the government implemented containment measures. This severe contraction is estimated to increase poverty by 2 million people (living below the poverty line for upper-middle income countries, \$5.5 per day in 2011 Purchasing Power Parity exchange rates, PPP).

South Africa entered the pandemic after several years of low growth. In 2019, the economy grew by 0.2% (in 2018 it was 0.8%) partially caused by the resurgence of load shedding associated with operational and financial difficulties at the energy utility Eskom. The persistence of the pandemic at the global and domestic levels continued to constrain the economic recovery during the first half of 2021. In addition, as economic activity restarts, pre-existing structural constraints, such as electricity shortages, are becoming binding again. Gross domestic product growth was expected to rebound to 3 % in 2021. Commodity prices remain important for South Africa, a major net exporter of minerals and net importer of oil. Strengthening investment, including foreign direct investment, will be critical to propel growth and create jobs (World Bank, 2021).

- **Key Development Challenges**

South Africa has made considerable strides to improve the wellbeing of its citizens since its transition to democracy in the mid-1990s, but progress has stagnated in the last decade. The percentage of the population below the upper-middle-income-country poverty line fell from 68% to 56% between 2005 and 2010 but has since trended slightly upwards to 57% in 2015 and is projected to reach 60% in 2020.

Structural challenges and weak growth have undermined progress in reducing poverty, which have been heightened by the COVID-19 pandemic. The achievement of progress in household welfare is severely constrained by rising unemployment, which reached an unprecedented 32.5 percent in the fourth quarter of 2020. The unemployment rate is highest among youths aged between 15 and 24, at around 63%.

South Africa remains a dual economy with one of the highest, persistent inequality rates in the world, with a consumption expenditure Gini coefficient of 0.63 in 2015. High inequality is perpetuated by a legacy of exclusion and the nature of economic growth, which is not pro-poor and does not generate sufficient jobs. Inequality in wealth is even higher and intergenerational mobility is low meaning inequalities are passed down from generation to generation with little change over time.

- **General description of the borrowers**

All of the Lending Company's clients are individuals, who choose to use their products due to the fast turnaround time enabled by the Lending Company's efficient use of financial technologies and our

adaptive credit models that allows us to accurately score thin filled individuals who otherwise would not be served. The customers are predominantly female, constituting around 60% of all loan portfolios with the average loan balance per borrower of USD 727.12 indicating outreach to a broad client segment. The Lending Company provides national coverage within South Africa.

- **Loan portfolio data**

As of 31 December 2021, Lending Company's total portfolio of gross receivables comprised EUR 6.5m. See below the cross-section of the portfolio in terms of Days Past Due (DPD), respectively. After a slight deterioration of the portfolio quality in mid of 2021, current part has grown back from 81% to 86%, as the company has increased issuance volumes during Q4. The part of the portfolio that is overdue more than 60 days has been consistently under 7% for the last 4 quarters.

○ Business overview

Finclusion Group consists of both Guarantors and their subsidiaries, Finclusion Group Limited is the holding company of Finclusion Africa Holding Limited.

Finclusion Africa Holdings Limited was founded in 2019 following the successful acquisition of Get Bucks Pty. Ltd in South Africa, Get Bucks Namibia Pty. Ltd in Namibia, GetBucks Pty Ltd in Eswatini, and Emu-Inya Enterprises from the previous holder MyBucks SA. The Finclusion Group restructuring was successfully completed through a staff retrenchment program, appointment of new directors at Group and subsidiary level, curtailment of operational costs and sell-off of non-core operations. In addition, management's strategy included a significant amount of corrective action on the loan portfolio, with the focus being on:

- Reshaping the credit risk approach.
- Re-defining the loan process.
- Pivoting its positioning in the market.

As a result, all major subsidiaries managed to reduce their non-performing loan (NPL) rates from highs of 57.0%, 25.5% and 23.98% in the Groups South African, Kenyan and Eswatini operations respectively for 2018 to 8.3%, 16.5% and 9.17% in June 2021. Finclusion Group now holds a set of scalable Fintech lending entities in SmartAdvance SA (GetBucks SA), GetBucks Namibia (Soon to be SmartAdvance Namibia), GetBucks Eswatini (Soon to be SmartAdvance Eswatini) and TrustGro Kenya(Emu-Inya Enterprises). Despite the disruptions caused by Covid-19 and the recent restructuring, Finclusion Africa Holdings Limited disbursed a total of c.\$20.5m and managed to contain expected credit losses at around 16.75% for 2020. As a result, 2021 has started strong for Finclusion Africa Holdings Limited, with the Group having disbursed c.\$12.289m for the year-to-date ending June 30(2020: c.\$8.92m). More importantly, this has been achieved whilst simultaneously reducing expected credit loss to an all-time low of 15.7% in May. As a result, the current loan book has a net present value of \$18,262,198, with an expected credit loss (provisions as per International Financial Reporting Standards) of 16.0% as of June 2021.

Since its inception, Finclusion Africa Holdings Limited has been invested in entities within the microfinance and insurance industries, with the primary focus being on the provision of unsecured credit products. Whilst Finclusion Africa Holdings Limited's main business continues to be in this area, following their restructuring, management decided to broaden their product offering to provide holistic financial solutions to their customers, backed on credit and powered by Finclusion Group's cutting edge, proprietary credit decisioning engines. In Eswatini, the average loan tenure is longer-term in nature, with an average loan tenure of 60 months. The Namibia product offering is short term in nature with an average loan tenure of 3 months, whilst the average loan tenure provided in South Africa is 24 months.

More recently, Finclusion Africa Holdings Limited subsidiary, formerly Emu-Inya Enterprises Limited trading as GetBucks Kenya, underwent a successful rebranding now going by TrustGro Kenya. Whilst the entity continues to provide direct to consumer salary advances, its primary offering focuses on salary

advances through direct partnerships with employers and customers on the government payroll. A product that has seen much traction in the East African market is the vehicle logbook loan, whereby employed or self-employed individuals are able to reduce their interest fee by securing the amount with their vehicle. The customer has full access to their car, with the agreement being concluded on successful repayment of the loaned amount. This has proved to be a vital credit line for SME's and self-employed individuals during the recent pandemic, providing support and even capital for growth during very difficult times.

The Guarantors under this Base Prospectus and Notes issues will guarantee the obligations of the Lending Company under the Cooperation Agreement and the Transfer Documents, and in case of the Lending Company's inability to perform its obligations guaranteed by the Guarantors to fulfil unperformed obligations as the Lending Company.

Finclusion Group expects that the following lending companies will enter and maintain legal relations with the Issuer during the term of this Base Prospectus with the aim of issuing loans backed and contingent notes according to the relevant prospectuses:

No.	Legal name	Registration No.	Domicile	Lending products offered
1.	TrustGro Sca Limited	C54186	Kenya	Instalment loans
2.	SMARTADVANCE (PTY) LTD	2010/015748/07	South Africa	Instalment loans

○ **Business strategy description**

The Finclusion Group employs a three-pronged diversification strategy, the first being the apparent regional diversification benefit, enabled by its digital approach and effective use of Fintech. Secondly, the Finclusion Group operations are currently split across multiple geographies. These include South Africa, Kenya and Eswatini, with a small but functional presence in Namibia. This provides greater flexibility in FX hedging and diversifies away part of the underlying country risk, which has become even more significant as of late. Lastly, the Group is unique in that they provide their users access to a holistic set of financial solutions. Besides their lending operation, the Group also provides users access to a full range of financial wellness and employee care solutions. This holistic approach is what sets the Group apart. By consolidating the offerings, the Group can ensure that its client's needs are always taken care of with the diversified set of revenues, allowing Finclusion Africa Holdings Limited to pass the cost-saving on to the consumer.

The Finclusion Group's South African financial wellness offering includes a range of insurance products, including credit life insurance products, both supplied by Lending Company's subsidiary NiftyCover (Pty) Ltd. The employer offering is soon to be enhanced through a free in-house payroll and benefits software solution that will fully integrate Lending Company's products into its customer's payroll and HR process. Thus, maximising client retention and satisfaction, but more importantly, streamlining the collections process and allowing employees to view their payroll calculation and respective tax and benefits deductions. Whilst still in development, Finclusion Africa Holdings Limited will shortly offer its clients direct access to retail goods through the Group's newly formed subsidiary Click2Pay (Pty) Ltd (C2P). C2P provides a range of short-term Buy-Now-Pay-Later products (incidental credit agreement with zero interest if paid on time) in both online and in-store settings, one of the first products of its kind in South Africa. In addition, there are stringent credit assessments to protect the over-indebted. The main aim is to allow responsible consumers to fully monetise their salary and access affordable deals, ordinarily exclusive to those with easy access to capital.

The Finclusion Group plans to continue expanding its lending operations in its respective operating geographies. The entity was built to operate at a scale far greater than it currently does. This has meant that the current loan book size is insufficient to drive profitability. The Group will continue to focus on developing employer-led distribution channels. The quasi-secured nature of having the collections process seamlessly integrated into the employee payroll process, has, in Finclusion Group's experience, shown to be the only truly responsible way one can provide credit to lower living standard measure market segments. The Group will look to build out its employee financial wellness solution in South Africa, integrating the respective verticals into a holistic user experience. In addition to the already mentioned services, Finclusion Group's offering may soon include products such as life cover, short term asset insurance and even developmental housing finance.

With a set of scalable Fintech verticals and an operating model built for Africa, the Group will look to capitalise on their employer distribution networks built up over the past two years. This will significantly increase the lifetime value of Group's respective users bringing significant scale to the Group's operations at minimal marginal cost. In addition, the Group is continuously looking for other financial solutions that can form part of the Group's offering. We believe this will allow the Group to consolidate an ecosystem of inter-connected Fintech verticals into Africa's one-stop-shop for employee's financial needs. With innovative technology solutions and cutting-edge credit risk models allowing us to create an ecosystem that is accessible and responsibly uplifts its users.

The Principal Amount Outstanding of the Notes redeemed will be in the same proportion as the proportion that the principal payment received by the Issuer has to the total principal amount outstanding of all the Series Specific Loans immediately before the principal payment. Any accrued but unpaid Interest associated to that proportion of the Principal Amount Outstanding of the Notes being redeemed will be paid at the same time.

Any repayment of the Principal Amount Outstanding will be made only in accordance with Conditions 7, 11 and 25, and will be subject to the relevant Payment Event having occurred and the Issuer having actually received the corresponding payment under the Series Specific Loans.

- 10.4 All determinations, calculations and adjustments made by Mintos will be made in conjunction with the Issuer and will, in the absence of manifest error, be conclusive in all respects and binding upon the Issuer and all Noteholders.

The Notes will not give rise to the Issuer having any payment obligation in excess of the foregoing.

Any overdue payment of Interest or principal under any of the Series Specific Loans that have been collected by the Lending Company (including by its external debt collection agency) will be paid to the Issuer as an Available Distribution Amount which will be paid in accordance with the Priority of Payments on the date determined by the Issuer at its sole discretion.

11.4 *Loan extension*

The Lending Company may modify any of the Series Specific Loans without approval of the Issuer and the Noteholders, provided that payments from the relevant Borrower remain unchanged.

The Issuer or Mintos will:

- (a) not be liable as a result for, or otherwise obliged to pay, any additional amount to any of the Noteholders in respect of, or compensation for, any such withholding or deduction or any other amounts withheld or deducted;

If the due date for payment of any amount in respect of any Notes is not a Business Day, the Noteholder will not be entitled to payment of the amount due until the next succeeding Business Day in such place and will not be entitled to any further interest or other payment in respect of any such delay.

12. **LIMITED RECOURSE AND NON-PETITION**

- 12.1 Notwithstanding anything in the Base Prospectus, the obligations of the Issuer in respect of the Notes are limited recourse obligations which are payable solely from the sums of principal, Interest, other return and additional amounts (if any) actually received (and identified as such) in relation to the Series Specific Loans.
- 12.2 All payments to be made by the Issuer in respect of the Notes will be made only from and to the extent of the sums received or recovered from time to time by or on behalf of the Issuer under the Series Specific Loans, subject always to the Priority of Payments.
- 12.3 In relation to any sums received or recovered, the Issuer (or Mintos on its behalf) will follow these Terms and Conditions in determining to which Series of Notes such sums relate and such determination will be binding on Noteholders of all Series in the absence of manifest error.
- 12.4 To the extent that the sums referred to in Condition 12.1 are less than the amount which the Noteholders may have expected and been entitled to receive (such difference being referred to as the **shortfall**), the shortfall will be borne by the Noteholders.

- 12.5 Each Noteholder, on subscribing or buying any Note directly, through a strategy of the Platform or any other way, irrevocably accept and acknowledge that it is fully aware that:
- (a) only the sums referred to in this Condition 12, and Conditions 7 and 11 will be available for any payments to be made by the Issuer in respect of the Notes;
 - (b) the sums which are attributable to another Series of Notes are only available in satisfaction of the obligations of the Issuer to such Noteholders;
 - (c) the obligations of the Issuer to make payments in respect of the Notes will be limited to the sums and the Noteholders will have no recourse to the Issuer, Mintos or their respective shareholders, directors, officers, employees, affiliates, successors or assigns in respect of the Notes for the shortfall;
 - (d) no Noteholder is entitled to proceed against the Issuer or Mintos for the shortfall;
 - (e) following the realisation and distribution of the net proceeds from the Loan Receivable corresponding to the Series Specific Loan in accordance with the Priority of Payments, the Noteholders or anyone acting on behalf of any of them will not be entitled to take any further steps against the Issuer or Mintos to recover any further sum and the right to receive any such further sum will be deemed as fulfilled; and
 - (f) no Noteholder will be entitled to petition or take any other step or join with any other person in bringing, instituting or joining, insolvency, winding-up, liquidation or bankruptcy proceedings (whether court-based or otherwise), or for the appointment of an examiner, liquidator or analogous person in relation to the Issuer, nor will it have any claim to, or in respect of any sum arising in respect of any assets of the Issuer.
- 12.6 Non-payment of the shortfall referred to in this Condition 12 will not constitute an Event of Default.
- 12.7 None of the shareholders of the Issuer, Mintos, the Lending Company, the Guarantors or the Backup Servicer (if any) has any obligation to any Noteholder for payment of any amount by the Issuer in respect of the Notes.
- 12.8 The provisions of this Condition 12 will survive redemption of the Notes.

13. PURCHASE

- 13.1 The Issuer may at any time purchase Notes at any price in the open market or otherwise.
- 13.2 Any Note purchased by the Issuer on the sole discretion of the Issuer may be either cancelled or sold to any investor on behalf of the Issuer by Mintos.

14. CANCELLATION

All Notes which are redeemed or cancelled may not be re-issued or resold.

15. PRESCRIPTION

Any and all claims against the Issuer for payment in respect of the Notes will be prescribed and become void unless made within 10 years from the date on which payment in respect of the Notes first becomes due.

16. FURTHER ISSUES

The Issuer may from time to time without the consent of the Noteholders create and issue further Series and further tranches of existing Series of Notes. A further tranche of an existing Series will:

- (a) be fungible with the Notes of that existing Series;
- (b) have the same terms and conditions as the Notes of that Series except for the Aggregate Nominal Amount, the Issue Date, the Issue Price, the Interest Accrual Periods, the first Interest Payment Date and the first Redemption Date; and
- (c) be consolidated and form a single Series with that existing Series of Notes, and references in these Terms and Conditions to Notes will be construed accordingly.

The right of the Issuer from time to time without the consent of the Noteholders to create and issue further Series, includes also the Issuer's right to issue loans backed and contingent notes according to the Base Prospectuses and transaction documents for other lending companies of the Finclusion Group.

17. EVENTS OF DEFAULT

17.1 Any of the following events will constitute an event of default under the Notes (each, an Event of Default):

- (a) if any order is made by any competent court or any resolution passed for the winding-up or dissolution (including any bankruptcy, insolvency, voluntary, forced or judicial liquidation, composition with creditors, a reprieve from payment, controlled management, fraudulent conveyance, general settlement with creditors or reorganisation proceedings or similar proceedings affecting the rights of creditors generally) of the Issuer (save for the purposes of amalgamation, merger, consolidation, reorganisation or other similar arrangements); or
- (b) formal notice is given of an appointment an administrator (including any receiver, liquidator, auditor, verifier), provisional administrator; or
- (c) any application is made, or petition is lodged, or documents are filed with the court or administrator in relation to the Issuer for the actions, proceeding or procedures specified in paragraphs (a) or (b) above, unless such proceedings or petitions are disputed in good faith and are discharged, stayed or dismissed within 90 calendar days of commencement.

17.2 The Issuer is obliged to inform Mintos immediately if any Event of Default should occur. Should Mintos not receive such information, Mintos is entitled to assume that no Event of Default exists or can be expected to occur, provided that Mintos does not have knowledge of any Event of Default. Mintos is under no obligation to make any investigations relating to any Event of Default. The Issuer will, at the request of Mintos, provide Mintos with details of any Event of Default and provide Mintos with all documents that may be of significance for the application of this Condition 17.

17.3 If Mintos has been notified by the Issuer or has otherwise determined that there is an Event of Default, Mintos will, within 20 Business Days of the day of notification or determination, notify the Noteholders according to Condition 20.

- 17.4 Upon the occurrence of an Event of Default, Notes are repaid according to the terms and conditions stipulated by this Base Prospectus and relevant Series Final Terms, unless otherwise required by a rule of the law.
- 17.5 Mintos, subject to the Noteholders indemnifying and holding Mintos harmless from any reasonable expenses, loss or liability, will take every reasonable measure necessary to recover the amounts outstanding under the Notes according to their terms and conditions and Transaction Documents. Mintos will in each case inform the Noteholders about the costs which should be compensated prior to requesting any indemnification. In any case Mintos will charge this compensation of costs only up to the recovered amount. Mintos will not ask for compensation of costs for its in-house staff and resources.
- 17.6 For the avoidance of doubt, if any payment is not made by the Issuer because the Issuer has not received the relevant amounts under the Series Specific Loans so that the Available Distribution Amount after application of the Priority of Payments is not enough to make payments due under the Notes in full, the occurrence of such event will, as such, not constitute an Event of Default.

18. MEETING OF NOTEHOLDERS

18.1 *General provisions*

The Issuer from time to time may convene a meeting of the Noteholders (the Noteholders Meeting) to adopt resolutions on certain matters. The Issuer at its own discretion decides which matters will be reserved for passing at the Noteholders Meeting.

These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the Noteholders Meeting or in respect of the relevant resolution and Noteholders who voted in a manner contrary to the majority. As a result, Noteholders may be bound by a change to these Terms and Conditions or by some other decision that affects Noteholders' investment in the Notes even though they have not agreed to such change.

The Noteholders Meeting may adopt its resolutions in one of the two forms as chosen by the Issuer:

- (a) at a meeting held by attendance of the Noteholders to discuss the items on the agenda and pass resolutions on the matters put to the vote using ballots provided; or
- (b) by absentee voting (without attendance of the Noteholders to discuss the items on the agenda and pass resolutions on the matters put to the vote).

The Noteholders Meeting will be chaired, and minutes taken by a representative of Mintos.

18.2 *Resolutions of the Noteholders Meeting*

Matters put to the vote at a Noteholders Meeting and its agenda will be decided by the Issuer.

The Noteholders may neither pass resolutions on the matters not included in its agenda nor amend the agenda.

Resolutions passed by the Noteholders Meeting and voting results will be provided to the persons eligible to participate in the Noteholders Meeting in a report, which will be disclosed to the Noteholders as per the procedure prescribed with regard to sending notices of the Noteholders Meeting, within 5 Business Days after the closing date of the meeting or the final

date for submitting the voting ballots in case of absentee voting. However, the failure to do so will not invalidate the resolution.

The resolution will be binding on all the Noteholders, whether or not present at the Noteholders Meeting and each of them will be bound to give effect to it accordingly.

18.3 *Information on holding a Noteholders Meeting*

The Issuer will notify the Noteholders about the Noteholders Meeting in accordance with the procedure below.

A notice of the Noteholders Meeting (the Notice) will be given according to Condition 20 no later than 10 days in advance.

The Notice will be given to the Noteholders registered on the date of the Notice in the electronic register of Noteholders maintained by Mintos.

The Issuer may decide not to publish the Notice on the Platform. In such a case within the time specified in this Condition 18.3 the Issuer will send the Notice to the Noteholders by email.

The Issuer may at its own discretion make available information to the Noteholders entitled to participate in the Noteholders Meeting as part of preparations for the Noteholders Meeting.

18.4 *Quorum at a Noteholders Meeting*

A Noteholders Meeting will be deemed quorate if attended by Noteholders aggregately holding more than 50% of:

- (a) the aggregate Principal Amount Outstanding of all Series of Notes towards the Lending Company on the date of the Notice if the decision is related towards all Series of Notes outstanding; or
- (b) the aggregate Principal Amount Outstanding of the relevant Series of Notes on the date of the Notice if the decision is related towards the relevant Series of Notes outstanding.

The number of votes for each Noteholder equals the Principal Amount Outstanding in the respective Series on the date of the Notice.

When a Noteholders Meeting is held by attendance of the Noteholders to discuss the items on the agenda and pass resolutions on the matters put to the vote, the Noteholders registered to participate in the Noteholders Meeting and the Noteholders whose ballots have been received no later than 2 days before the meeting will be deemed to have participated in the meeting.

When a Noteholders Meeting is held in the form of absentee voting, the Noteholders whose ballots have been received before the final date for submitting the ballots will be deemed to have participated in the meeting.

Where there is no quorum for a Noteholders Meeting, a second Noteholders Meeting will be held with the same agenda. Such second Noteholders Meeting will be deemed quorate if attended by Noteholders aggregately holding more than 30% of:

- (a) the aggregate Principal Amount Outstanding of all Series of Notes towards the Lending Company on the date of the Notice if the decision is related towards all Series of Notes outstanding; or

- (b) the aggregate Principal Amount Outstanding of the relevant Series of Notes on the date of the Notice if the decision is related towards the relevant Series of Notes outstanding.

Subject to the quorum being present, the decisions on the Noteholders Meeting agenda will be adopted per each item of the agenda by the majority from the total amount of votes provided.

18.5 *Voting ballots*

Ballots for voting at a Noteholders Meeting will be sent together with the Notice according to Condition 18.3.

Ballots for voting will be in the English language.

Voting could be convened as an e-voting through filling-out an electronic voting ballot through the interface of the Platform.

Noteholders included in the list of those entitled to participate in the Noteholders Meeting other than the Noteholders Meeting held in the form of absentee voting, or their representatives, may register to participate or forward their completed ballots to the Issuer. Voting ballots will be counted towards the calculation of the quorum and voting results if received by the company no later than 2 days before the Noteholders Meeting.

The voting ballot will contain the information about the Noteholders Meeting including but not limited to:

- information about the Issuer, including address and contact person;
- details identifying the Series of Notes;
- form of the Noteholders Meeting (attendance or by absentee voting);
- date, place and time of the Noteholders Meeting if it is held in the form of attendance of the Noteholders;
- Principal Amount Outstanding; and
- voting options for each item on the agenda, expressed as “for”, “against”, or “abstained”, and the indication that the voting ballot must be signed by a person entitled to participate in the Noteholders Meeting or its representative unless convened by e-voting.

When voting by ballots, only those voting ballots are counted where for each item only one voting option is selected. The voting ballots completed in breach of the aforementioned requirement will be deemed invalid. However, if there are several items put to the vote on the voting ballot, breach of the aforementioned requirement with respect to one or several items will not affect the validity of the remaining ballot. If a voting ballot is rendered invalid with respect to voting on one, several or all items included in such ballot, the votes so cast in such ballot will not be excluded from the calculation of the quorum. If a voting ballot is rendered invalid, the votes on the items contained in the voting ballot will not be counted.

18.6 *Counting*

The counting functions will be performed by Mintos, which will check the powers of, and register the participants in a Noteholders Meeting, determine the quorum at a Noteholders Meeting,

count the votes and determine the voting results, draw up the voting minutes and hand over the voting ballots to the archive.

- 21.2 The Issuer subject to the provisions of the Transaction Documents reserves the right at any time to vary or terminate the appointment of Mintos, the Lending Company and any other party to any of the Transaction Documents.

22. FORCE MAJEURE

Neither the Issuer nor Mintos will be responsible for any failure to perform any of its respective obligations under these Terms and Conditions which is due to any reason that is independent of that person's will and has resulted from a *force majeure* event. A *force majeure* event will apply only and solely if that person has taken all steps that depend on it in order to perform the obligation. Once the *force majeure* event has finished, that person must immediately resume the performance of the obligation. The following circumstances will be considered as *force majeure* events:

- (a) extraordinary and unavoidable circumstances including natural disasters, fire, flood, earthquake, warfare, terror acts, riots and strikes;
- (b) technical failures, delays or malfunctions; failure of computers, communications systems, hardware and/or software; power supply malfunctions; or other critical infrastructure malfunctions, which neither the Issuer nor Mintos could have prevented or predicted;

- 23.2 The courts of the Republic of Latvia are to have jurisdiction to settle any disputes which may arise out of or in connection with the Notes (including any disputes relating to any non-contractual obligations arising out of or in connection with the Notes) and accordingly any legal action or proceedings arising out of or in conjunction with the Notes may be brought in such courts. The Issuer and each of the Noteholders irrevocably submit to the jurisdiction of such courts.

24. AMENDMENTS AND MODIFICATIONS

To comply with any applicable law, the Issuer may validly amend or supplement these Terms and Conditions by publishing the changed Terms and Conditions on the Platform without the consent of the Noteholders.

25. LIMITATION OF LIABILITY, AND REPRESENTATION AND WARRANTIES OF THE NOTEHOLDER

- 25.1 Notwithstanding anything in the Base Prospectus, other than with respect to gross negligence

or wilful misconduct by the Issuer and/or Mintos, neither the Issuer nor Mintos will be held liable by any Noteholder for:

- (a) any material error, misrepresentation, omission or fraud by the Lending Company;
- (b) failure of the Lending Company for whatever reason to inform the Issuer and/or Mintos of the Payment Event having occurred or for the information being inaccurate or wrong;
- (c) the Loan Receivables; or
- (d) determinations and decisions when distributing amounts under the Notes, including, when applying the Priority of Payments, deciding whether to defer payment or make a partial payment, relying upon or deciding if and when there is no realistic prospect of collecting further funds under a Series Specific Loan, including in the event of default of the Lending Company.

25.2 In any and all cases, liability of the Issuer and/or Mintos to any Noteholder under these Terms and Conditions will be limited to the amount invested in the impacted Notes by the Noteholder.

25.3 Each Noteholder, on subscribing or buying any Note directly, through a strategy of the Platform or any other way, irrevocably accept and acknowledge that it is fully aware that:

- (a) the Issuer and Mintos do not make any representation or warranty in respect of, or will not at any time have any responsibility for, or, save as otherwise expressly provided in these Terms and Conditions, liability or obligation in respect of the performance and observance by any Borrower of its obligations under the relevant Series Specific Loan, the Lending Company of its obligations under the Cooperation Agreement, the Guarantors of its obligations under the Guarantee Agreements and/or by the pledgor of its obligations under the pledge agreement, or the recoverability of any sum of the principal, Interest, other return or any additional amounts (if any) due or to become due from any Borrower, the Lending Company, the Guarantors and/or the pledgor;

The Noteholder accepts not to attach or otherwise seize any of the assets of the Issuer. - (g) the Investment Accounts will be opened and be held by the Noteholder fully operational with Mintos while the Noteholder holds any Notes.

11. TAXATION

The information provided in this section will not be treated as legal or tax advice; and prospective investors are advised to consult their own tax advisors as to the tax consequences of the subscription, ownership and disposal of the Notes applicable to their particular circumstances. The following is a general summary of certain tax considerations in the Republic of Latvia in relation to the Notes. It is not exhaustive and does not purport to be a complete analysis of all tax consequences relating to the Notes, as well as does not take into account or discuss the tax implications of any country other than the Republic of Latvia.

Tax laws of the Noteholder's country of residence for taxation purposes and of the Issuer's country of residence may have an impact on the income received from the Notes.

This summary is based on the laws of Latvia as in force on the date of this Base Prospectus and is subject to any change in the law that may take effect after such date, provided that such changes could apply also retroactively.

Latvia has entered into a number of tax conventions on elimination of the double taxation (hereinafter - DTT), which may provide a more favourable taxation regime. Therefore, if there is a valid DTT between Latvia and the country of tax residence of a prospective Noteholder, it should be also examined. The procedures for application of tax conventions are provided in the Republic of Latvia Cabinet of Ministers' Regulations No. 178 "Procedures for Application of Tax Relief Determined in International Agreements for Prevention of Double Taxation and Tax Evasion", adopted on 30 April 2001.

Taxation of the Issuer

Issuer is a corporate income taxpayer in Latvia. According to the Latvian tax law, the annual profit earned by entities in Latvia is not taxed. Instead, Corporate income tax is paid on dividends, fringe benefits, gifts, donations, representation costs, non-business related disbursements and transfer pricing adjustments. The tax rate applicable is 20%, however, the taxable base is divided by the coefficient 0.8, thus the effective corporate income tax rate is 25%.

Taxation of the Noteholders individuals

Resident individuals

An individual will be considered as a resident of Latvia for taxation purposes, if at least one of the following requirements is met:

- the declared place of residence of this person is in Latvia;
- the person stays in Latvia for at least 183 days over the course of a period of 12 consecutive calendar months;
- the person is a Latvian citizen who is employed by the government of Latvia in a foreign country.

In accordance with the Latvian tax laws the interest income received by the individual tax resident in Latvia is subject to tax at the rate of 20%. The interest income from the Notes for resident individuals will be subject to 20 % personal income tax that will be withheld by the Issuer before the Interest payment is made by the Issuer to the Noteholder. The tax withheld by the Issuer is a final tax liability on the interest income received.

The income from the sale of the Notes is treated as an income similar to the interest income for the Latvian personal income tax purposes and will be subject to 20% personal income tax and the tax is payable by the individual him/herself.

Non-resident individuals

An individual would be considered as a non-resident of Latvia for taxation purposes in all cases unless he/she is a tax resident of Latvia. Interest income from the Notes received by the non-resident individual will be subject to personal income tax in Latvia according to the rate set forth by law, which is currently 20%. According to the general practice, the tax withheld in Latvia might be deducted from the tax payable by the investor in his/her residence country (as tax paid abroad). However, we recommend

consulting with the respective country's tax administration or tax adviser to clarify the procedure and documents required to perform such a deduction (if any).

The tax rate might be reduced based on the Double Tax Treaty between Latvia and the respective country. The list of the Double Tax Treaties concluded by Latvia is available here: https://www.vid.gov.lv/sites/default/files/tax_treaties_28032018.pdf

The income from the sale of the Notes will be subject to 20% tax and the tax would be payable by the individual him/herself if the buyer of the Notes is an individual or legal entity non-resident of Latvia. If the buyer is a legal entity - resident of Latvia, the tax at the rate of 3% will be withheld by the buyer.

Taxation of the Noteholders - legal entities

Resident legal entities

A legal entity would be considered as a resident of Latvia for tax purposes, if it is established pursuant to Latvian law. Interest payments on the Notes and proceeds from the disposal of the Notes received by Latvian resident legal entities will not be subject to withholding tax in Latvia. Under the Latvian tax law retained earnings are exempt from corporate income tax and only profit distributions are taxed. Distributed gross profits are subject to the 20% profit tax. Corporate income tax on net amount of profit distribution is determined by dividing net amount with a coefficient of 0.8 (i.e., effective tax rate on net distributed profit is 25%).

Non-resident legal entities

A legal entity would be considered as a non-resident of Latvia for taxation purposes in all cases unless it is a tax resident of Latvia. The interest income and capital gains from the sale of the Notes for non-resident legal entities will not be taxable in Latvia (i.e. gross income will be paid), except if the income recipient is located, registered or incorporated in a no-tax or low-tax country (so called "tax havens"; if this is the case - 20% tax will be withheld by the Issuer in Latvia). The list of "tax havens" according to the Latvian law includes US Guam, US Samoa, US Virgin Islands, Republic of Fiji, Republic of Palau, Republic of Panama, Independent State of Samoa, Republic of Trinidad and Tobago, Republic of Vanuatu. The list of mentioned countries and territories may be amended from time to time.
