SIA TWINO INVESTMENTS POLAND

(a limited liability company incorporated and registered in Latvia
with the unified registration number 40203380395 and LEI 984500BDTE51D13B6879)

EUR 10 000 000 PROGRAMME FOR THE ISSUANCE OF ASSET-BACKED SECURITIES

Under this EUR 10 000 000 Programme for the Issuance of Asset-Backed Securities (the “**Programme**”) described in this Base Prospectus (as may be amended, updated and supplemented from time to time) (the “**Base Prospectus**”) SIA TWINO Investments Poland, incorporated in and operating under the laws of Latvia with unified registration number 40203380395 (the “**Issuer**”) subject to compliance with all the relevant laws and regulations may from time to time issue in one or several series (the “**Series**”) asset-backed securities (the “**Securities**”) denominated in EUR. The maximum aggregate nominal amount of the Securities from time to time outstanding under the Programme and issued by the Issuer will not at any time exceed EUR 10 000 000 (or its equivalent in any other currency). The Securities will be distributed by way of a public offer.

References herein to “the Base Prospectus” shall, where applicable, be deemed to be references to the Base Prospectus, including the documents attached herein or incorporated herein by reference (*see Section 3 “DOCUMENTS AVAILABLE” herein*), as supplemented or amended from time to time.

To the extent not set forth in the Base Prospectus, the specific terms of any Securities will be included in the relevant final terms (the “**Final Terms**”) (a form of which is contained herein), therefore the prospectus relating to Series issued under the Programme consists of this Base Prospectus and the respective Final Terms.

The nominal amount of each Security shall be specified in the Final Terms and shall be at least EUR 1.00. The Securities will be offered for subscription for a minimum investment amount, which will be specified in the Final Terms. The Securities will be issued in registered and book-entry form. The Securities shall be governed by the laws of Latvia.

The Base Prospectus has been drawn up in accordance with Article 8 of *the Regulation (EU) 2017/1129 of the European Parliament and of the Council of 14 June 2017 on the prospectus to be published when securities are offered to the public or admitted to trading on a regulated market, and repealing Directive 2003/71/EC* (the “**Prospectus Regulation**”) and *the Commission Delegated Regulation (EU) 2019/980 of 14 March 2019 supplementing Prospectus Regulation as regards the format, content, scrutiny and approval of the prospectus to be published when securities are offered to the public or admitted to trading on a regulated market, and repealing Commission Regulation (EC) No 809/2004*, in particular, with Annex 9 “*Registration document for asset-backed securities*”, Annex 14 “*Securities note for retail non-equity securities*” and Annex 19 “*Asset-backed securities*” thereof.

The Bank of Latvia (*in Latvian – Latvijas Banka*) (the “**BoL**”) in its capacity as the competent authority in Latvia for the purposes of the Prospectus Regulation, has approved the Base Prospectus. The Base Prospectus is valid for a period of twelve (12) months after its approval by the BoL and must during such period in accordance with Article 23 of the Prospectus Regulation be completed by a supplement to the Base Prospectus in the event of any new significant facts or material errors or inaccuracies. The obligation to supplement the Base Prospectus in the event of significant new factors, material mistakes or material inaccuracies does not apply when the Base Prospectus is no longer valid.

Investment in the Securities to be issued under the Programme described in the Base Prospectus involves certain risks. Prospective investors should carefully acquaint themselves with such risks before deciding to invest in the Securities (*see Section 2 “RISK FACTORS” herein*). Investment in the Securities must be based on the Base Prospectus as a whole. Hence, we ask you to study the Base Prospectus with care.

Except where specified otherwise, capitalised words and expressions in the Base Prospectus have the meaning given to them in *Section 13.17 “DEFINITIONS”* of the Terms and Conditions of the Securities. The Base Prospectus and any supplement thereto will be published on the website www.twino.eu and copies may be obtained at the following address: 30 Tērbatas Street, Riga, LV-1011, Latvia during normal business hours on any business day.

The date of the Base Prospectus is 20 October 2023.

IMPORTANT NOTICES

Words and expressions defined in the Terms and Conditions of the Securities or elsewhere in the Base Prospectus have the same meanings in this section, unless otherwise stated.

The Base Prospectus (together with any supplement thereto published from time to time (each a “**Supplement**” and, together, the “**Supplements**”)) constitutes a base prospectus for the purposes of Article 8 of the Prospectus Regulation, and for the purposes of giving all necessary information, with regard to the Issuer, the Securities and the other parties involved in the issuance and offering of the Securities, which is necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profits and losses and prospects of the Issuer, the rights attaching to the Securities and the reason for the issuance and its impact on the Issuer.

Considering that the Base Prospectus contains information that is material in the context of the issue and offering of the Securities, responsibility for the information provided in the Base Prospectus is defined in *Section 11.1 “RESPONSIBILITY STATEMENT”* herein.

The Base Prospectus should be read and construed in conjunction with any Supplement thereto and with any relevant information of the documents incorporated by reference (*see Section 3 “DOCUMENTS AVAILABLE” herein*), the information of which shall be incorporated in and form part of the Base Prospectus and, in relation to any Series (as defined herein) of Securities, should be read and construed together with the relevant Final Terms, the Base Prospectus and the relevant Final Terms being together, the “**Base Prospectus**”.

No person has been authorised by the Issuer to give any information or to make any representation not contained in or not consistent with the Base Prospectus or any other document entered into in relation to the Programme or any information supplied by the Issuer or such other information as is in the public domain and, if given or made, such information or representation should not be relied upon as having been authorised by the Issuer or the Distributor.

No representation or warranty is made or implied by the Distributor or any of their respective affiliates, and the Distributor or any of their respective affiliates makes any representation or warranty or accepts any responsibility, as to the accuracy or completeness of the information contained in the Base Prospectus. Neither the delivery of this Base Prospectus or any Final Terms nor the offering, sale or delivery of any Security shall, in any circumstances, create any implication that the information contained in the Base Prospectus is true subsequent to the date thereof or the date upon which this Base Prospectus has been most recently amended or supplemented or that there has been no adverse change in the financial situation of the Issuer since the date thereof or, as the case may be, the date upon which this Base Prospectus has been most recently amended or supplemented or that any other information supplied in connection with the Programme is correct at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

The distribution of the Base Prospectus, any Final Terms, any offering materials under the Programme and the offering, sale and delivery of the Securities in certain jurisdictions may be restricted by law.

Under no circumstances shall the Base Prospectus constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of the Securities in any jurisdiction in which such offer, solicitation or sale would be unlawful. No action has been taken by the Issuer or the Distributor which would permit a public offering of any Securities or distribution of the Base Prospectus in any such jurisdiction where action for that purpose is required. Accordingly, no Securities may be offered or sold, directly or indirectly and neither the Base Prospectus nor any Final Terms or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations and the Distributor has represented that all offers and sales by them will be made on the same terms. Persons into whose possession the Base Prospectus or any Final Terms come are required by the Issuer and the Distributor to inform themselves about and to observe any such restrictions.

Neither the Base Prospectus, nor any Final Terms constitutes an offer of, or an invitation by or on behalf of the Issuer or the Distributor to subscribe for, or purchase, any Securities. For a description of certain restrictions on offers, sales and deliveries of the Securities and on the distribution of this Base Prospectus or any Final Terms and other offering material relating to the Securities, see *Section 13.9 “Subscription and Sale”* herein.

MiFID II Product Governance / Target Market. The Base Prospectus in respect of any Securities includes a legend entitled “*MiFID II Product Governance*” providing information about the Target Market assessment in respect of the Securities undertaken by the Distributor by taking into account the five (5) categories referred to in item 18 of

the Guidelines published by the European Securities and Markets Authority (ESMA) on 5 February 2018 and the determined appropriate distribution channels of the Securities that are appropriate. For the avoidance of doubt, the Issuer is not a MiFID II regulated entity and does not qualify as a distributor or a manufacturer under the Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID II Product Governance Rules**"). The Issuer is not and will not be regulated by the BoL as a result of issuing the Securities. Any investment in Securities does not have the status of a bank deposit and is not within the scope of the deposit protection scheme operated by the BoL.

Independent review and advice. The investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each prospective investor of Securities must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Securities is fully consistent with its financial needs, objectives and condition, complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it and is a fit, proper and suitable investment for it, notwithstanding the clear and substantial risks inherent in investing in or holding the Securities.

A prospective investor may not rely on the Issuer or the Distributor or any of their respective affiliates in connection with its determination as to the legality of its acquisition of the Securities or as to the other matters referred to above.

The Securities may not be a suitable investment for all investors. Each prospective investor in the Securities must determine the suitability of that investment in light of its own circumstances. In particular, each prospective investor should:

- a. have sufficient knowledge and experience to make a meaningful evaluation of the Securities, the merits and risks of investing in the relevant Securities and the information contained or incorporated by reference in the Base Prospectus or any Supplement thereto and the relevant Final Terms;
- b. have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the relevant Securities and the impact the relevant Securities will have on its overall investment portfolio;
- c. have sufficient financial resources and liquidity to bear all of the risks of an investment in the Securities, including Securities with principal or interest payable in EUR currency, or where the currency for principal or interest payments is different from the prospective investor's own currency;
- d. understand thoroughly the terms of the relevant Securities and be familiar with the behaviour of any relevant indices and financial markets;
- e. be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks; and
- f. be aware, in terms of laws and regulations and regulatory regime applicable to such investor of the applicable restrictions on its ability to invest in the Securities.

A prospective investor should not invest in Securities unless it has the expertise (either alone or with a financial adviser) to evaluate how the Securities will perform under changing conditions, the resulting effects on the value of such Securities and the impact this investment will have on the prospective investor's overall investment portfolio.

A prospective investor must comply with the laws and regulations that apply to it in any place in which it invests in Securities or possess the Base Prospectus. The Issuer or the Distributor are not responsible for compliance with these legal requirements, including any consents or approvals that may be necessary to invest in Securities.

Warning – Taxation. The tax legislation of the investor's residence state and of the Issuer's country of incorporation may have an impact on the income received from the Securities. Prospective investors of the Securities should be aware that they may be required to pay taxes or documentary charges or duties in accordance with the laws and practices of the jurisdiction where the Securities are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for innovative financial notes such as the Securities.

Credit ratings. Neither the Base Prospectus, any relevant Final Terms, nor any other information supplied in connection with the offering of the Securities is intended to provide the basis of any credit or other evaluation, or should be considered as a recommendation or an offer, or invitation to purchase any Securities.

One or more independent credit rating agencies may assign credit ratings to the Securities and/or to the Issuer. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed in this section, and other factors that may affect the value of the Securities. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

The credit ratings of the Issuer are an assessment of its ability to pay its obligations, including those arising from the Securities.

DISTRIBUTION OF THE BASE PROSPECTUS AND SELLING RESTRICTIONS

The distribution of the Base Prospectus and any Final Terms may in certain jurisdictions be restricted by law. The Base Prospectus and any Final Terms may not be used for the purpose of, or in connection with, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offer or solicitation.

The Issuer and the Distributor and any of their respective affiliates expect persons into whose possession the Base Prospectus or any Final Terms comes to inform themselves of and observe all such restrictions. Neither the Issuer nor the Distributor nor or any of their respective affiliates accept any legal responsibility for any violation by any person, whether or not a prospective investor is aware of such restrictions.

The Base Prospectus and any Final Terms may not be forwarded or distributed other than as provided herein and may not be reproduced in any manner whatsoever. This Base Prospectus and any Final Terms is not distributed to the United States, Australia, Canada, Japan, Hong Kong, Singapore, the United Kingdom, or any other jurisdiction in which it would be unlawful. Accordingly, the Securities may not be offered, sold, resold, delivered, distributed or otherwise transferred, either directly or indirectly, in or into any or from the United States absent registration under the Securities Act or an exemption therefrom, and non-compliance with applicable state securities laws.

The BoL, considered as competent authority under the Prospectus Regulation, has approved this Base Prospectus. The Distributor has submitted to BoL notifications of intention to provide cross border services and/or activities in another EEA state in accordance with Article 34 (2) of MiFID, which have been passed to the respective EEA member states' authorities. Furthermore, the Issuer has agreed that it has not made any public offer of Securities prior to that EEA member state's authority receiving a certificate of approval of the BoL attesting that the Base Prospectus has been drawn up in accordance with the Prospectus Regulation together with a copy of the Base Prospectus.

Accordingly, any person making or intending to make an offer within the EEA of Securities which are the subject of an offering contemplated by this Base Prospectus and the relevant Final Terms (other than the offer of Securities in Latvia) may only do so in circumstances in which no obligation arises for the Issuer or the Distributor to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation, in each case, in relation to such offer.

The Base Prospectus is to be offered to the public in Latvia, and, subject to BoL notification to respective EEA member state's authorities by providing the certificate of approval attesting that the Base Prospectus has been drawn up in accordance with the Prospectus Regulation, in Austria, Belgium, Czech Republic, Estonia, France, Germany, Italy, Lithuania, Netherlands, Portugal and Spain.

1. GENERAL DESCRIPTION OF THE PROGRAMME

This general description constitutes a general description of the Programme for the purposes of Article 25.1(b) of the Delegated Regulation (EU) 2019/980 (as defined below) and must be read as an introduction to the Base Prospectus. It does not, and is not intended to, constitute a summary of this Base Prospectus within the meaning of Article 7 of the Prospectus Regulation (as defined below) or any implementing regulation thereof. The following overview does not purport to be complete and is taken from, and is qualified by, the remainder of this Base Prospectus and, in relation to the terms and conditions of any particular Series and the relevant Final Terms.

Any decision to invest in the Securities should be based on a consideration of the Base Prospectus as a whole, including any amendment and/or supplement hereto and the documents incorporated by reference herein.

Words and expressions defined in the Terms and Conditions of the Securities or elsewhere in the Base Prospectus have the same meanings in this section, unless otherwise stated.

Taxation:	All payments in respect of the Securities by the Issuer shall be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature, unless the withholding or deduction of the taxes is required by the laws of Latvia. In such case the Issuer shall withhold the tax from the payment to the Securityholder and pay the amount net of tax.
Use of proceeds:	The Issuer is a <i>special purpose entity</i> incorporated and registered with the sole goal to facilitate the process of the issuance of the Securities (see Section 11.7 “Use of Proceeds and Interests of Persons involved in the Issue and Offer” herein).
Governing law:	The Securities are created and issued in accordance with the laws of Latvia.

2. RISK FACTORS

The discussion below is of a general nature and is intended to describe various risk factors associated with an investment in the Securities. You should carefully consider the following discussion of risks, and any risk factors included in the documents incorporated by reference herein.

The Issuer believes that the factors described below represent the principal risks inherent in investing in Securities issued under the Programme, but the failure of the Issuer to pay interest (if any), principal or other amounts on or in connection with any Securities may occur or arise for other reasons which may not be considered significant risks by the Issuer based on information currently available to it or which it may not currently be able to anticipate.

Words and expressions defined in the Terms and Conditions of the Securities or elsewhere in the Base Prospectus have the same meanings in this section, unless otherwise stated.

To the best of the Issuer's knowledge, in each category of Risk Factors, the risk factor identified by the Issuer as the most important appears first. For the rest of the risk factors, the order of appearance is not an indication of the importance or the likelihood of their occurrence.

2.1. RISK FACTORS RELATED TO THE ISSUER

The main risk factors that influence the Issuer are dependency on service providers and operational risks, including legal risks, in particular following risk factors should be considered in relation to the Issuer:

Risk	Risk rating
Dependency on services provided by the third parties	Medium
Legal risks	Medium
Cross-risks applicable to the Issuer	Medium

2.1.1. Dependency on services provided by the third parties

In order to optimize operations and costs of business operations the Issuer uses information technology services provided by the Distributor and third parties such as cloud computing providers, communication providers, IT development service providers and license providers. Continuing relationships with service providers which are used to ensure daily operations are critical to the Issuer's business. To be able to issue the Security, for each of the Series the Issuer must receive an ISIN code provided by Nasdaq CSD SE. However, it should be noted that there remains the risk that in case of any unpredictable event Nasdaq CSD SE might not be able to assign ISIN codes to the Issuer or cause a delay of the assignment, the Issuer and the Distributor might face the risk of further Security issuance interruption.

If any IT system at any stage of the business operations were to fail, any or all stages of the business process could be affected. There can be no assurance of possible disruptions (even short-term) to the functionality of the IT systems and infrastructure used by the Issuer.

Any inability to maintain existing business relationships with banks, IT service providers and other third-party providers or the failure by these third-party providers to maintain the quality of their services or otherwise provide their services to the Issuer may have a material adverse effect on the Issuer's business, financial condition, results of operations, prospects or cash flows.

Risk rating: Medium

2.1.2. Legal risks

The Issuer's operations are subject to regulation by a variety of financial services and other state authorities, including, but not limited to, laws and regulations relating to issuance of Securities and personal data processing. Failure to comply with existing laws and regulations applicable to the Issuer's operations, or to obtain and comply with all authorizations and permits required for the Issuer's operations, or adverse findings of governmental inspections, may result in the imposition of material fines or penalties or more severe sanctions, including preventing the Issuer from continuing its business activities, or in criminal penalties being imposed on the Issuer's officers.

The Issuer is subject to a variety of laws and regulations that involve user privacy issues, data protection, disclosures, distribution, electronic contracts and other communications and consumer protection.

Failure to implement the requirements of data protection regulations, in particular the requirement of the General Data Protection Regulation (EU) 2016/679 (the “GDPR”), could result in severe damage claims from affected individuals and massive fines from the authorities responsible for supervision of GDPR compliance.

In addition, the application and interpretation of these laws and regulations are sometimes uncertain and may be interpreted and applied inconsistently from supervisory authorities and may also be inconsistent with the Issuer’s current or past policies and practices.

Existing and proposed laws and regulations can be costly to comply with and can increase the Issuer’s operating costs, require significant management time and attention, and be a subject to inquiries or investigations, claims or other remedies, including demands which may require the Issuer to modify or cease existing business practices and/or pay fines and penalties as mentioned above or other damages. This may have a material adverse effect on the Issuer’s business, financial condition, results of operations, prospects or cash flows.

Risk rating: Medium.

2.1.3. Cross-risks applicable to the Issuer

Considering the pass-through nature of the Issuer within the transaction flow, the Issuer and its abilities to pay amounts due to the Securityholders under the Securities are exposed to all the risks listed in *Section “2.4. RISK FACTORS RELATED TO THE LOAN ORIGINATOR”* herein.

Risk rating: Medium.

2.2. RISK FACTORS RELATED TO THE DISTRIBUTOR

The main risk factors that influence the Distributor are risks related to compliance and regulatory matters, third party service providers and others.

Risk	Risk rating
Risk related to ensuring the compliance with existing regulatory enactments	Medium
The risk of counterparty default	Medium
Dependency on services provided by the third parties	Low

2.2.1. Risk related to ensuring the compliance with existing regulatory enactments

The Distributor’s operations are subject to regulation by BoL and other state authorities, including, but not limited to laws and regulations relating to provision of investment services, as well as to anti-money laundering laws and sanction regulations. Failure to comply with existing laws and regulations applicable to the Distributor’s operations, or adverse findings of BoL inspections, may result in the imposition of material fines or penalties or more severe sanctions, including preventing the Distributor from continuing substantial parts of its business activities, suspension or revocation of the licenses, or in criminal penalties being imposed on the officers.

Changes in laws or regulations made by the government or a regulatory body can increase the costs of operating Distributor’s business, reduce the attractiveness of an investment, change the competitive landscape, or it can even make a significant shifting in the framework of an industry, transformations in cost-structuring, as well as application of administrative sanctions from supervisory authorities (including, but not limited to, monetary fines) and impact on reputation of the Distributor. This may have a material adverse effect on the Distributor’s business, financial condition, results of operations, prospects, or cash flows.

Risk rating: Medium.

2.2.2. The risk of counterparty default

The Distributor is subject to the risk of loss due to non-payments by the Loan Originator. The default is contingent on the inability or unwillingness of the Loan Originator to make the commission payments, which depend on the

nominal value outstanding of the Securities that are issued on the Platform. This includes scenarios where the respective party makes payments late, only partially or not at all.

Any material reduction in commissions could have an effect on the Distributor’s business, financial condition, results of operations, prospects or cash flows.

Risk rating: Medium.

2.2.3. Dependency on services provided by the third parties

In order to optimize costs of business operations, the Distributor uses information technology services provided by the third parties such as cloud computing providers, communication providers, IT development service providers and license providers. To be able to distribute the Security, for each of the Series, the Distributor must coordinate the security issuance process with Nasdaq CSD SE. However, it should be noted that the Distributor might face the risk of Security issuance interruption.

If any IT system of the business operations were to fail, any or all stages of the security distribution process could be affected. There can be no assurance of possible disruptions (even short-term) to the functionality of IT systems used by the Distributor and IT infrastructure.

Any inability to maintain existing business relationships with banks, IT service providers and other third-party providers or the failure by these third-party providers to maintain the quality of their services or otherwise provide their services to the Distributor may have a material adverse effect on the Distributor’s business and reputation.

Risk rating: Low.

2.3. RISK FACTORS RELATED TO THE LENDER

The main risk factors that influence the Lender are related with information technology risk, and cross-risks related with the Issuer and the Loan Originator. Following risk factors should be considered in particular in relation to the Lender:

Risk	Risk rating
Dependency on information technology systems	Medium
Cross-risks applicable to the Lender	Medium

2.3.1. Dependency on information technology systems

The Lender’s operations rely on sophisticated information technology (IT) systems which ensures automation of business processes. The Lender’s ability to meet the defined strategic objectives depends on the functionality of IT systems.

If any IT system at any stage of the business operations were to fail, any or all stages of the business process could be affected. There can be no assurance of possible disruptions (even short-term) to the functionality of the Lender’s IT systems and infrastructure.

Any inability to mitigate technological risks of the Lender’s IT systems and infrastructure or to adapt operations and software may have a material adverse effect on the Lender’s business, financial condition, results of operations, prospects or cash flows.

Risk rating: Medium.

2.3.2. Cross-risks applicable to the Lender

Considering the pass-through nature of the Lender, the Lender and its abilities to pay amounts due to the Securityholder under the Securities are exposed to all the risks listed in sections “2.4. RISK FACTORS RELATED TO THE LOAN ORIGINATOR” herein.

Risk rating: Medium.

2.4. RISK FACTORS RELATED TO THE LOAN ORIGINATOR

The main risk factors that influence the Loan Originator are related with macroeconomics risk, market risk, credit risk and operational risk, including legal and information technology risk. Following risk factors should be considered in relation to the Loan Originator's business and industry.

Risk	Risk rating
Risks related to macroeconomic developments	Medium
The risk of counterparty default	Medium
Substantial change in the underwriting standards	Medium
Inability to recover outstanding debt	High
Foreign exchange risk	Medium
Dependency on services provided by the third parties	Medium
Industry related or strategic risks	Medium

2.4.1. Risks related to macroeconomic developments

The results of the Loan Originator's operations are dependent on the macroeconomic situation in Vietnam. In particular, the Loan Originator's operations are affected by such factors as the rate of inflation, the unemployment rate and changes in consumer affluence levels.

An unexpected downturn in the economy could have an impact on the Loan Originator's customers and negatively affect its growth and results of operations through higher demand for the consumer loan products from customers with reduced solvency. Also, customers' capability to fulfil their obligations towards the Loan Originator may deteriorate, which could lead to an increase in the overdue portfolio, creating adverse effect on the Loan Originator's business and financial position.

Any negative effect on the economy may decrease income of the Loan Originator's customers and thus the ability to fulfil their obligations. Such effects may also result in insolvency of the Loan Originator's business partners, which could affect the Loan Originator's operations, as well as its financial standing. Lastly, in case of an economic downturn, the price of the Securities and the ability of the Loan Originator to acquire further financing may be adversely affected.

Any negative effect on macroeconomic level in Vietnam may have a material adverse effect on the Loan Originator's business, financial condition, results of operations, prospects or cash flows.

Risk rating: Medium.

2.4.2. The risk of counterparty default

The Loan Originator is subject to the risk of loss due to non-payments by the Underlying Borrowers of their obligations. The default is contingent on the inability or unwillingness of the Underlying Borrowers to make payments. This includes scenarios where the contracting party makes payments late, only partially or not at all.

The Loan Originator relies on detailed procedures in order to contact delinquent Underlying Borrowers for payment. However, there is still the risk that the implemented assessment procedures, monitoring of credit risk and maintenance of customer account records performed by the Loan Originator might not be sufficient to prevent negative effects for its operations.

In addition, factors beyond the control of the Loan Originator, such as the impact of macroeconomic trends, political events or adverse events affecting key jurisdiction, or natural disasters, may result in an increase in non-performing assets. The allowances for doubtful debts made by the Loan Originator may not be adequate to cover an increase in the amount of non-performing assets or any future deterioration in the overall credit quality of the total loan portfolio. If the quality of the Loan Originator's total loan portfolio deteriorates, it may be required to increase its allowances for doubtful debts, which may have a material adverse effect on the Loan Originator's business, financial condition, results of operations, prospects or cash flows.

Risk rating: Medium.

2.4.3. Substantial change in the underwriting standards

Further credit risks could arise if the Loan Originator's management decides on a more aggressive risk tolerance without compensating for it in the form of additional revenue. For instance, the acceptance policy for loan agreements could be adjusted to a riskier approach with the setting of higher acceptance thresholds. This could lead to the situation that the total credit risk increases, but the planned income from the additional business does not compensate the additional risk related costs. Consequently, the Loan Originator's operational results could be adversely affected by the level of non-performing assets and write-offs.

Risk rating: Medium.

2.4.4. Inability to recover outstanding debt

Various socio-economic trends and potential changes to existing laws and regulations may contribute to an increase in the number of borrowers subject to personal insolvency procedures. The ability to successfully collect the consumer loans may decline with an increase in personal insolvency procedures or a change in insolvency laws, regulations, practices, social norms, which may have a material adverse effect on the Loan Originator's business, financial condition, results of operations, prospects or cash flows.

Risk rating: High.

2.4.5. Foreign exchange risk

Loan Originator issues the Underlying Loans in VND currency. The Lender issues the Loan and, thus, the Issuer receives corresponding repayments of the Loan Receivables in EUR currency. As a result, Loan Originator is exposed to foreign exchange rate fluctuations and any failure to manage foreign exchange risk may have a material adverse effect on its business, financial condition, results of operations, prospects or cash flows.

Risk rating: Medium.

2.4.6. Dependency on services provided by the third parties

In order to optimize operations and costs of business operations the Loan Originator uses information technology and other services provided by third parties. Continuing relationships with service providers which are used to ensure daily operations are critical to the Loan Originator's business.

Additionally, the Loan Originator advance loans to customers and collects repayments through local bank accounts. The Loan Originator's continuing relationships with the banks with which it maintains accounts are critical to the business.

Any inability to maintain existing business relationships with banks, IT service providers and other third-party providers or the failure by these third-party providers to maintain the quality of their services or otherwise provide their services to the Loan Originator may have a material adverse effect on the Loan Originator's business, financial condition, results of operations, prospects, or cash flows.

Risk rating: Medium.

2.4.7. Industry related or strategic risks

The Loan Originator operates in a fast-paced industry that may not develop as expected and which makes it difficult to evaluate the Loan Originator's prospects thus it may increase the risk that the Loan Originator will not be successful. Assessing business and its prospects is challenging considering the risks and difficulties the Loan Originator may encounter. These risks and difficulties include the Loan Originator's ability to:

- a. increase the number and total volume of issued loans while keeping allowances at acceptable level;
- b. improve the credit scoring internal model as to decrease the risk of counterparty default;
- c. successfully develop and deploy new products;
- d. deal with changes in lending industry;
- e. favourably compete with other companies that are currently in, or may in the future enter, the business of consumer lending;

- f. successfully navigate economic conditions and fluctuations in credit markets;
- g. effectively manage the growth of the business.

The Loan Originator may not be able to successfully address these risks and difficulties, which could have a material adverse effect on the Loan Originator’s business, financial condition, results of operations, prospects or cash flows.

Risk rating: Medium.

2.5. RISK FACTORS RELATED TO THE LOAN BROKER

The main risk factors that influence the Loan Broker are related with operational risks, dependency on third parties, reputation risks and others. Following risk factors should be considered in particular in relation to the Loan Broker:

Risk	Risk rating
Difficulties in assessing credit risk	Medium
Dependency on services provided by third parties	Medium
Risk related to ensuring compliance with existing regulatory enactments	Medium
Cross-risks applicable to the Loan Broker	Medium
Reputation risk	Medium

2.5.1. Difficulties in assessing credit risk

The Loan Broker is responsible for conducting the credit risk assessment of the borrowers in scope of the transactions. Despite credit scoring and client creditworthiness evaluation models used by the Loan Broker, it may be unable to correctly evaluate the current financial condition of each prospective customer and determine his or her creditworthiness. The financing decisions of the Loan Originator are based partly on information provided by the credit line applicants to the Loan Broker.

Prospective customers may fraudulently provide inaccurate information upon which, if not alerted to the fraud, the Loan Broker may base own credit scoring models and creditworthiness assessment. Any failure to correctly assess the credit risk of potential customers, due to failure in the evaluation of the customer or incorrect information provided by the customer, may have a material adverse effect on the Loan Broker’s business, results of operations and may even invoke regulatory sanctions (including imposition of fines and penalties, suspension of operations).

Risk rating: Medium.

2.5.2. Dependency on services provided by third parties

In order to offer its products and services in an efficient manner, the Loan Broker relies on services from third parties. Such services include data collection and processing, offering of the products on vamo.vn Securityholder, communication providers, IT development service providers, license providers and others. It is critical to the business operations of the Loan Broker to continue relationship with the service providers. Any inability to maintain existing relationship with service providers or failure of such providers to maintain the quality of the services may have a material adverse effect on the Issuer’s business, financial condition, results of operations, prospects or cash flows.

Risk rating: Medium.

2.5.3. Risk related to ensuring compliance with existing regulatory enactments

The Loan Broker’s operations are subject to regulation by a variety of consumer protection, financial services and other state authorities, including, but not limited to, laws and regulations relating to provision of payment services, crediting and consumer rights protection, debt collection and personal data processing. Failure to comply with existing laws and regulations applicable to the Loan Broker’s operations, to obtain and comply with

all authorizations and permits required for its operations, or adverse findings of governmental inspections, may result in the imposition of material fines or more severe sanctions, including preventing the Loan Broker from continuing substantial parts of its business activities, suspension or revocation of the licenses, or in criminal penalties being imposed.

The Loan Broker also has an essential risk exposure towards the amendments of regulatory and compliance, i.e., the risk of a change in regulations and laws that might affect its business operations. Such change in laws or regulations can increase the costs of operating the Loan Broker's business, reduce the attractiveness of an investment, change the competitive landscape, or it can even make a significant shifting in the framework of an industry, transformations in cost-structuring, as well as application of administrative sanctions from supervisory authorities, impact on reputation and/or solvency of the Loan Originator.

Further, the Loan Broker's business is subject to a variety of laws and regulations that involve user privacy issues, data protection, advertising, marketing, disclosures, distribution, electronic contracts and other communications and consumer protection.

In addition, the application and interpretation of these laws and regulations are sometimes uncertain, particularly in the new and rapidly evolving industry in which the Loan Broker operates and may be interpreted and applied inconsistently from supervisory authorities and may also be inconsistent with the current or past policies and practices.

Existing and proposed laws and regulations can be costly to comply with and can delay or impede the development of new products, the expansion into new markets, result in negative publicity, increase the operating costs, require significant management time and attention, and be a subject to inquiries or investigations, claims or other remedies. This may have a material adverse effect on the Loan Originator's business, financial condition, results of operations, prospects, or cash flows.

Risk rating: Medium.

2.5.4. Cross-risks applicable to the Loan Broker

Considering the dependency that the Loan Broker has on the Loan Originators' ability to provide financing to the Underlying Borrowers, its operations and prospects are exposed to risks as described in Section 2.4 "RISK FACTORS RELATED TO THE LOAN ORIGINATOR" herein.

Risk rating: Medium.

2.5.5. Reputation risk

The ability to attract new customers and retain existing customers of the Loan Broker depends in part on the brand recognition and the constant delivery of high-quality services. The Loan Broker's reputation and brand image may be harmed if the company encounters difficulties in the provision of its services. Such difficulties may arise as a result of technical issues, changes in the product offering, financial concerns, regulatory sanctions or any other reasons. Damage to the brand of the Loan Broker or a deterioration in the quality of the services it provides may have a material adverse effect on the business, financial condition, results of operations, prospects or cash flows.

Risk rating: Medium.

2.6. RISK FACTORS RELATED TO THE SECURITIES

The main risk factors that influence the Securities are related with repayment risk, liquidity risk, price risk and others. Following risk factors should be considered in particular in relation to investments in Securities:

Risk	Risk rating
Securities repayment risk	Medium
Liquidity risk	Medium
Price risk	Medium

Risk	Risk rating
Tax risk	Medium

2.6.1. Securities repayment risk

No pledge or other types of guarantees will be available for the Securityholder with respect to the Securities. However, the Securities will be backed by the Loan Receivables which have a pledge over the Underlying Portfolio. In case of Issuer's insolvency the Securityholder has the right as other creditors of the relevant group to receive the payment of the outstanding principal amount of the Securities and the interest accrued on the Securities according to the relevant laws governing the insolvency process of the Issuer. There are no direct contracts or other transaction documents concluded with the Securityholder, which would clearly define the subordination of the claims of the Securityholder to other unsecured obligations of the Issuer.

The most significant risk that can have direct impact on security repayment is in the scenario when Loan Originator' is unable to make repayments to Lender on business loans thus triggering delay in repayments of Loan Receivables from Lender to the Issuer. As a result, the Security's principal and/or interest repayment to the Securityholder is delayed.

Risk rating: Medium.

2.6.2. Liquidity risk

The Securities are not admitted to any trading venue and thus, can be considered as illiquid instruments. The potential buyers and transferees are limited only to other investors on the Platform. Neither the Issuer, nor any other person guarantees the minimum liquidity of the Securities prior the initially agreed term has expired. The Securityholder should consider that there may be difficulties in selling the Securities to other Securityholders on the Platform, which might lead to selling at a discount to liquidate the Securityholder's position. Discount rate and premium shall be capped to maximum of 29.9 per cent (for discount) and 4.9 per cent (for premium) change from Nominal Value correspondingly.

Risk rating: Medium.

2.6.3. Price risk

Securities shall be repaid for their Nominal Value, however the fair value of the Security might significantly differ from the initial Nominal Value as price of the Security after the Issue Date may fluctuate, depending on what other investors are willing to pay for it. Neither the Issuer, nor any other person undertakes to maintain a certain price level of Securities, therefore a Securityholder may bear loss if they decide to sell the Security.

Risk rating: Medium.

2.6.4. Tax risk

Tax rates and the payment procedure of taxes that is in force at the moment of the purchase of the Securities and is applicable to both tax residents and non-residents of Latvia may change over time. The Issuer will not compensate the Securityholder for any increase in taxes to be paid by them, therefore, the Securityholder may receive smaller payments related to the Securities over time.

In the event that new regulation is introduced, or existing regulation or its interpretation changes so that the Issuer and/or Distributor needs to withhold additional taxes before making payments to the Securityholder, and the Issuer and/or Distributor is required to withhold any transfer tax, stamp duty and/or financial transactions tax, this could impact the expected return on investment for the Securityholder. Similar consequences might arise also in the Securityholder's tax residence country, if the same takes place there.

Risk rating: Medium.

4. DESCRIPTION OF THE UNDERLYING ASSET

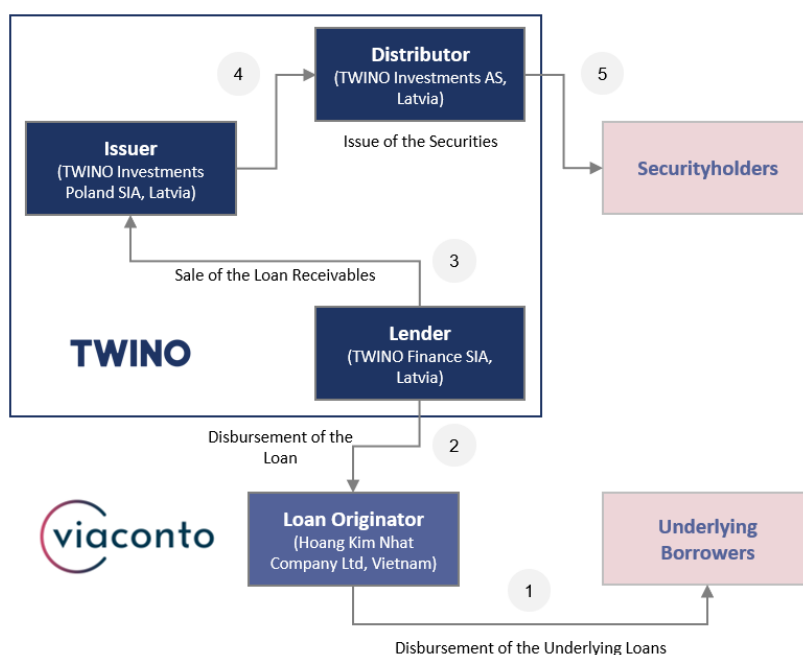

The following overview contains basic information about the Securities and the Loan Receivables and should be read in conjunction with, and is qualified in its entirety by, the information set forth under “Terms and Conditions of the Securities” and information appearing elsewhere in this Base Prospectus. The following overview does not purport to be complete and is taken from, and is qualified in its entirety by, the remainder of this document and, in relation to the terms and conditions of any particular Series of Securities or the applicable Final Terms. The Final Terms relating to such Securities will be published on the Website (for investors in EEA). Words and expressions defined in “Terms and Conditions of the Securities” shall have the same meanings in this summary and throughout the entire Base Prospectus.

4.1. THE SECURITIES AND TRANSACTION OVERVIEW

The Issuer will issue the Securities to Securityholders (5) for the sole purpose of funding the acquisition of the Loan Receivables, based on business loan (2) issued by Lender to Loan Originator for the purpose of disbursing Underlying Loans (1) to Underlying Borrowers. Each Series of Securities will be issued in registered and book-entry form. The transactions will be structured in several steps, where the Issuer will always purchase the Loan Receivables from the Lender prior to the issuance of the Securities.

The sale of the Loan Receivables will take place based on the Assignment Agreement (3) between the Lender (as the assignor) and the Issuer (as the assignee). As a result, the Issuer will always have the legal title to the Loan Receivables, when it issues the Securities. The Securities shall be issued (4) at par and no discount or premium shall be applied unless otherwise stated in the relevant Final Terms.

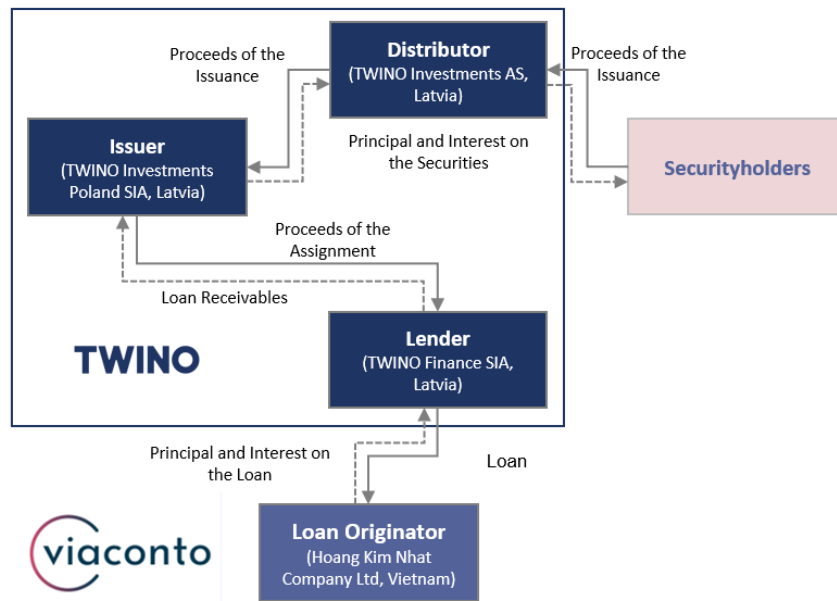

Figure 1 - Transaction structure: Legal arrangements between the parties

The amount of the Loan Receivables sold to the Issuer within a Series shall always be equal to the gross proceeds from the particular issuance of the Securities. The Assignment Fee shall be paid by the Issuer to the Lender after the Securities are issued and the Issuer has obtained the proceeds from the Securityholders. The Lender shall further transfer these funds to the Loan Originator in line with the Loan Agreement.

The Loan Originator shall repay the Loan to Lender in line with the Loan Agreement. Lender shall further transfer the Loan Receivables to the Issuer in line with the Assignment Agreement. The Issuer shall then repay the Securities to the Securityholders using the funds from the Loan Receivables. Accordingly, all payments that the Issuer is obliged to make to the Securityholders under each Series will be made only from and to the extent of such sums received (or recovered by or on behalf of the Issuer) (net of tax) from the assets (i.e., Loan Receivables) securing such Series.

Figure 2 - Transaction structure: Flow of Payments

4.1.1. Coverage of the Securities

No collateral, pledge or other types of guarantees will be available for the Securityholders with respect to the Securities. However, the Securities will be backed by the Loan Receivables. This means that the Issuer has the rights to receive the repayments made by the Loan Originator with respect to the Loans, which in terms of amount fully covers all Securities. The Underlying Portfolio will be pledged by of the Loan Originator in favour of the Lender in line with the Pledge Agreement, unless it becomes illegal for the pledge to remain in force in line with the laws of Vietnam in which case the Loan Receivables shall be unsecured.

4.1.2. Transaction Documents: The Assignment Agreement

The Assignment Agreement is concluded between the Lender (as the assignor) and the Issuer (as the assignee) with respect to the Loan Receivables. The purpose of this agreement is for the Issuer to have legal title to the Loan Receivables, which serve as the assets that are backing the Securities. The behaviour of the Securities is linked to the behaviour of the Loan Receivables (not the Underlying Loans) – the repayment (or delay) of the Loan Receivables triggers an equivalent repayment (or delay) of the Securities that are backed by those exact Loan Receivables. Key terms and conditions of the Assignment Agreement are as follows:

Assignment Fee:	The Issuer pays the Assignment Fee to the Lender for the Loan Receivables.
Servicing of the Loan Receivables:	Lender continues to service the Loan and receive repayments with respect to the Loan Receivables from the Loan Originator.
Repayment of the Loan Receivables:	Lender is obliged to transfer any repayments with respect to the Loan Receivables to the Issuer upon receiving such repayments from the Loan Originator.
No guarantee by the Lender:	Lender does not provide any kind of guarantee to the Issuer with respect to the repayment of the Loan Receivables.
Skin-in-the-game:	The Loan Receivables shall be assigned in full amount (with respect to the Loan issued) and the Lender shall not retain the title to any receivables arising from the Loan. Instead the skin-in-the-game requirement shall be fulfilled by economic substance by limiting the total outstanding Loan amount to a maximum of 95% of the total outstanding Underlying Portfolio.

4.1.3. Transaction Documents: The Loan Agreement

The Loan Agreement is concluded between the Lender (as the lender) and the Loan Originator (as the borrower) with respect to the Loan. The purpose of this agreement is for the Loan Originator to obtain funding to finance the disbursement of the Underlying Loans. The repayment of the Loan is not linked to or conditional upon the repayment of the Underlying Loans, but instead shall take place in line with the schedule, which is defined in the Loan Agreement itself, which consists of two elements:

- a. **A master agreement** that sets out the overall framework of the Loan including, but not limited to the procedure of and conditions for distributing the Loan; and
- b. **Sub-agreements** (i.e., appendixes) to the master agreement that define the exact terms and conditions of each individual Loan, which shall be distributed to the Loan Originator over time.

The key terms and conditions of the Loan Agreement are as follows:

Lender's obligations	The Lender commits to granting the Loan to the Loan Originator, if among other conditions (i) the latter has sufficient coverage to cover the Loan and (ii) Lender has received the Assignment Fee for the Loan Receivables from the Issuer.
Loan disbursement procedure	The Loan is distributed in the following manner: (i) the Loan Originator reserves an individual Loan amount with specific maturity date and other characteristics, which creates a new Loan Receivable, (ii) Lender assigns this Loan Receivable to the Issuer and (iii) Lender disburses this individual Loan (which is a part of the overall Loan) to the Loan Originator.
The Loan Originator's obligations	The Loan Originator among other things commits to: (i) borrow the reserved amount on the agreed terms and conditions and (ii) repay the Loan in line with the schedule.
Loan amount:	The cumulative amount of all individual Loans shall be limited to a maximum of EUR 10 000 000. The minimum amount of a single individual Loan is set to EUR 5 000. The maximum amount for an individual Loan is EUR 250 000. The amount of the individual Loans shall not mirror the amount of individual Underlying Loans, but instead they shall be independent from each other.
Loan Term:	The Loan Agreement shall be active for loan disbursement of Loans one year since the conclusion. In case of extension of the Loan Agreement term, the Loan Originator is obliged to register the Loan Agreement with the State Bank of Vietnam before the extension. However, the disbursed Loans under respective sub-agreements shall continue be outstanding in accordance with the terms of respective agreements and shall be repaid in accordance with schedules set out in such sub-agreements.
Loan schedule:	The repayment of the principal amount of each individual Loan shall be structured as a bullet payment, while the repayment of interest shall take place periodically both of which among other things shall be defined in the Final Terms.
Interest on Loan:	The Loan carries a fixed interest rate which is defined in the Final Terms.
Triggers for the repayment of the Loan:	The repayment of the Loan is not linked to or triggered by the repayment of the Underlying Loans, but instead takes place in line with the schedule.
Extensions of the Loan:	The Loan Originator has the right to extend the initial maturity of any of the individual Loans for no more than four times for a three-month period (in total twelve-month period).

4.1.4. Transaction Documents: The Guarantee Agreement

The Guarantee Agreement is concluded by and between the Loan Broker (as the guarantor) and the Lender (as the obligee) to secure the obligations of the Loan Originator with respect of the Loan Receivables that may be incurred and arising out of the Loan Agreement. Under the Guarantee Agreement the Loan Broker provides

assurance to the Lender to cover all the monetary liabilities of the Loan Originator arising out of the Loan Agreement if the Loan Originator fails to fulfil its obligations.

Subject:	The Loan Broker provides irrevocable and unconditional assurance as the principal debtor to the Lender (and its assignors) to cover in full all the monetary liabilities of the Loan Originator (principal, interest, commissions, indemnities, charges, expenses and other) that may be incurred and arising out of the Loan Agreement if the Loan Originator fails to fulfil its obligations;
Right of the Lender:	To request the Loan Broker to make a payment if the Loan Originator fails, in whole or in part, to make any payment due under the Loan Agreement;
Obligations of the Loan Broker:	Upon receipt of the Lender's (or its assignor's) first written request to make a payment to the Lender (or its assignor);
Term and termination:	The Guarantee Agreement is in force until the Loan Originator has settled all its liabilities arising out of the Loan Agreement in full;
Governing law:	The laws of Latvia;
Dispute settlement:	The disputes and any claims between the parties are settled in a court of Latvia according to the laws of Latvia.

4.1.5. Transaction Documents: Subordination Agreement

The Subordination Agreement is concluded by and between the Loan Originator (as the debtor) and the Loan Broker (as the guarantor) and the Lender (as the creditor) to depict and recognize the liabilities of the Loan Originator and the Loan Broker arising out of the Transaction Documents (the Loan Agreement, the Guarantee agreement and the Distribution Agreement) and the priority of those liabilities over any other liabilities of the Loan Originator and the Loan Broker respectively.

Subject:	In general, under the Subordination Agreement the liabilities and the repayment obligations of the Loan Originator arising out of the Loan Agreement are deemed to be senior liabilities while any other monetary debt liabilities of the Loan Originator are deemed to be junior liabilities. Under the Subordination Agreement the liabilities and the repayment obligations of the Loan Broker arising out of the Guarantee Agreement are deemed to be senior liabilities while any other monetary debt liabilities of the Loan Broker are deemed to be junior liabilities. The junior liabilities shall be subordinated under the senior liabilities and thus the junior liabilities are ranked below the senior liabilities with regard to claims on assets or earnings;
Right of the Lender:	In the event of the Loan Originator's and/or the Loan Broker's default to meet its financial obligations towards their creditors, the Lender (or its assignees) has the legal right to request to settle the monetary liabilities towards the Lender (or its assignees) in full first;
Obligations of the Loan Broker:	To respect the subordination of the junior liabilities and settle the monetary liabilities towards the Lender (or its assignees) before settling any other creditor claims;
Obligations of the Loan Originator:	To respect the subordination of the junior liabilities and settle the monetary liabilities towards the Lender (or its assignees) before settling any other creditor claims;
Term and termination:	The Subordination Agreement is in force until the Loan Originator has settled all its liabilities arising out of the Loan Agreement in full and/or until the end of the validity term of the Guarantee Agreement;
Governing law:	The laws of Latvia;
Dispute settlement:	The disputes and any claims between the parties are settled in a court of Latvia according to the laws of Latvia.

4.1.6. Withholding tax

All payments in respect of the Securities by the Issuer shall be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature, unless the withholding or deduction of the Taxes is required by the laws of Latvia. In such case the Issuer shall withhold the tax from the payment to the Securityholder and pay the amount net of tax. (For more information, please see Section 12. "TAXATION")

4.2. ROLE OF THE PARTIES INVOLVED IN THE TRANSACTIONS

4.2.1. The Loan Originator and the Loan Broker

The Loan Originator in cooperation with the Loan Broker grants Underlying Loans to the Underlying Borrowers. The Loan Broker and the Loan Originator both have entered into a cooperation with the aim of granting consumer loans to customers in Vietnam, where:

- a. the Loan Broker is the client facing entity and is responsible for (among others) functions like: (a) customer service, (b) marketing, (c) risk scoring and (d) debt collection; and
- b. the Loan Originator is the one that grants the Underlying Loans to the Underlying Borrowers, if they qualify for the loan according to the risk scoring done by the Loan Broker.

The Loan Broker acts as a service provider with respect to the Loan Originator for which the Loan Originator pays a service fee to the Loan Broker. The parties have also entered into a compensation agreement, where the Loan Broker (given that it performs the risk scoring process) compensates the Loan Originator for the credit risk with respect to the Underlying Loans. As a result, the Loan Broker and the Loan Originator are both performing integral parts of the issuance of the Underlying Loans.

The Loan Originator participates in the process of issuing the Securities by way of obtaining the Loan from the Lender in line with the Loan Agreement. The Underlying Portfolio serves as a pledge for the Loan and by economic substance serves as skin in the game, because the amount of the Loan shall not exceed 95% of the Underlying Portfolio. Under the Loan Agreement the Loan Originator confirms that the Underlying Portfolio is:

- a. not alienated to any third party;
- b. not encumbered with any encumbrances;
- c. not subject to any disputes, except as occur in the ordinary course of business;
- d. not subject to any limitations on making a recovery with regard to it; and
- e. not subject to any other interest, right or claim over by third parties, in or in relation to it.

Furthermore, the Loan Originator will not undergo any restructuring, acquire or establish any subsidiaries without prior written confirmation from the Distributor as long as the Loan from the Lender is not fully repaid.

4.2.2. The Lender

The Lender grants the Loan to the Loan Originator and sells (assigns) the Loan Receivables to the Issuer in line with the Assignment Agreement, which is the principal business activity of the Lender and the way in which it participates in the process of issuing the Securities. Under the Assignment Agreement the Lender confirms that the claims arising from the Loan Receivables are:

- a. not alienated to any third party;
- b. not encumbered with any encumbrances;
- c. not subject to any disputes;
- d. not subject to any restrictions that forbid to assign them to the Issuer;
- e. not subject to any limitations on making a recovery with regard to them; and
- f. not subject to any other interest, right or claim over by third parties, in or in relation to them.

Furthermore, the Lender will not undergo any restructuring, acquire or establish any subsidiaries without prior written confirmation from the Issuer as long as the Loan Receivables are not fully repaid to the Issuer.

4.2.3. The Issuer

The Issuer issues the Securities to the Securityholders and uses the proceeds obtained to finance the acquisition of the Loan Receivables, which is the principal business activity of the Issuer. It shall repay the Securities to the Securityholders in line with the terms and conditions described in the Base Prospectus and the Final Terms. Among other conditions, the Securities shall be repaid upon successful recovery of the Loan Receivables, which are backing those particular Securities.

The Securityholders will have no further recourse to the Issuer or any of the Issuer's other assets in respect thereof. If the amount due and payable by the Issuer under such Securities exceeds the sums so received or recovered from the Loan Receivables, the right of any person to claim payment from the Issuer of any amounts exceeding such sums shall be extinguished, and Securityholders may take no further action to recover such amounts.

So long as any Security remains outstanding, the Issuer will not enter other transactions or engage in any other business (except transactions contemplated by this Base Prospectus or similar offerings), declare any dividends or have any subsidiaries.

4.2.4. The Distributor

The Distributor operates as an investment brokerage company and organizes the process of issuing the Securities, which is the principal business activity of the Distributor. The Securities shall be unlisted and offered solely over the counter on the Website. It shall act as an intermediary between the investors and other parties involved in the process of issuing the Securities. In this respect, the Distributor shall act as a payment agent on behalf of the Lender and the Issuer to manage the cash flow and payments between the Issuer, the Lender and the Loan Originator.

All such payments, where the Distributor acts as a payment agent shall be executed by the Distributor immediately, but no later than within 3 business days after the day of receiving the incoming funds (unless agreed otherwise by the parties) to make the corresponding outgoing payment, where the following order takes place:

- a. funds from the investors are collected prior the purchase of the Securities;
- b. Issue Price is transferred to the Issuer after the Securities are issued;
- c. Assignment Fee is transferred to the Lender after the Issue Price is received by the Issuer;
- d. Loan is disbursed to the Loan Originator after the Assignment Fee is received by the Lender;
- e. Loan Receivables are transferred to the Issuer after the Loan is repaid by the Loan Originator; and
- f. the Securities are repaid to the Securityholders after the Loan Receivables are received by the Issuer.

The Distributor shall also verify and ensure that the transactions between the parties involved in the process are compliant with applicable laws and regulations (Laws of Latvia and regulations of the European Union on the prevention of money laundering and terrorism and proliferation financing) and maintain the Register for the transactions.

5. ORGANISATIONAL STRUCTURE

The Issuer, the Lender and the Loan Broker all have the same ultimate beneficial owner – Mr Armands Broks (the “UBO”), however they belong to and operate under the management of different business divisions that are controlled by the UBO. These are:

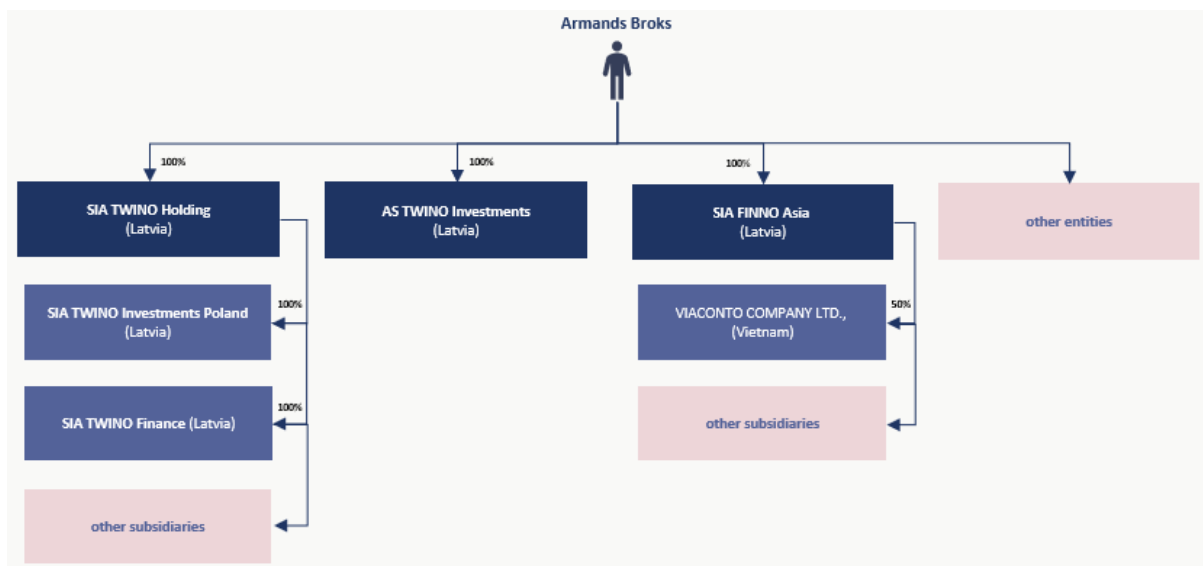

i) Investment business:

The investment business operates under the brand name “TWINO” and is set up under two different legal entities (in the Base Prospectus jointly referred to as the “TWINO Group”): AS TWINO Investments, with the unified registration number: 44103143823 (the Distributor) and SIA TWINO Holding, with the unified registration number: 40203295313 (“SIA TWINO Holding”). Both the Issuer and the Lender are subsidiaries of SIA TWINO Holding and part of the TWINO Group, consisting of companies that operate in the investment business, including, but not limited to the Distributor.

ii) Lending business:

The lending business operates under the brand name “FINNO” and is set up under three different legal entities (in this Base Prospectus jointly referred to as the “FINNO Group”), amongst them is SIA FINNO Asia, with the unified registration number: 40203370838 (“SIA FINNO Asia”). SIA FINNO Asia is a part of the FINNO Group, which consists of companies that operate in the lending business. SIA FINNO Asia holds 50% shareholding in the Loan Broker. Historically the lending business operated under the TWINO brand, but along with the emergence of the investment business was separated from the latter both in terms of the legal structure, as well as the brand name.

The balance sheet of the Loan Originator grew more than 2 times during the reporting years. The main change arose due to an increase in held-to-maturity investments, which is the money distributed to the Underlying Borrowers for the loans issued. These are classified as held-to-maturity investments according to the Vietnamese accounting standards.

Additionally, as the Loan Originator has issued more Underlying loans, the receivables from the Underlying Borrowers have also increased in accordance with it. To be able to provide the necessary financing, the Loan Originator has also borrowed more capital as short-term loans and finance lease.

Looking at the income statement in the reported period, the Loan Originator reports significant improvements in its financial statements. The Loan Originator has experienced a notable increase in revenue, driven by strategic initiatives and enhanced market positioning as well as generating other revenues which also improved overall profitability of the Loan Originator. This is also reflected by the data in balance sheet - the Loan Originator has covered previous period losses and reported year is with positive equity.

8.6. LEGAL AND ARBITRATION PROCEEDINGS

Since the date of the Loan Originator's incorporation, the Loan Originator has not been involved in any litigation or arbitration proceedings (including any such proceedings which are pending or threatened of which the Loan Originator is aware) which may have, or have had a significant effect on the financial position or profitability of the Loan Originator.

The Borrowing Consulting Agreement is concluded by and between the Underlying Borrower and the Loan Broker, which sets forth the terms and conditions of the existing legal relationship between the Loan Broker and the Underlying Borrower. The Borrowing Consulting Agreement is governed and construed in accordance with the laws of Vietnam.

Under the Borrowing Consulting Agreement, the Loan Broker is responsible for the introduction of the amount and term of the Underlying Loan, arranging the signing of the Underlying Agreement between the Underlying Borrower and the Loan Broker, assisting the Underlying Borrower with all matters arising during the term of the Underlying Loan. The Underlying Borrower is required to pledge a personal belonging, such as a mobile phone, as a collateral for the Underlying Loan.

For the services provided by the Loan Broker, the Loan Broker receives a consulting fee, a prolongation fee in case of the extension of the maturity term of the Underlying Loan, and a support fee, which is charged in case of a delayed payments of the Underlying Loan by the Underlying Borrower. The consulting fee is based on the amount and tenor of the Underlying Loan and is calculated as follows: *Loan amount x Loan tenor x 1.5%*. The prolongation fee depends on the days of the extension and is calculated accordingly:

- a. if the term is prolonged up to seven (7) days: Loan amount x 19%;
- b. if the term is prolonged up to fourteen (14) days: Loan amount x 29%;
- c. if the term is prolonged up to thirty (30) days: Loan amount x 39%.

9.3.2. The Underlying Loan application process

The application for the Underlying Loan takes place on the online lending platform vamo.vn (the "**Lending Platform**"). For new applicants, the process begins with a customer selecting a desired consumer loan amount and term and continues with a registration phase, where a customer fills out short information form about himself/herself. The Lending Platform ensures a simple registration process and fast processing of the information as the application of for the consumer loan is evaluated immediately and the customer is notified of the results via e-mail or phone within one business day.

Repeated customers wishing to apply for a consumer loan must login into their account on the Lending Platform with the registered phone number and a password, select the desired consumer loan amount and term and make the request. Assessment of re-borrowers is prioritized and assessed faster.

A customer wishing to apply for a consumer loan must be a citizen living and working in Vietnam, be in the age range from 20 to 60 years and have a stable job and income. The application process requires a valid ID or CCCD (Citizen Identity Card) to verify the identity of the applicant.

The applicant may get an offer for an amount not corresponding to the initially requested amount. In such cases, customers must manually accept or decline the offer.

As soon as the loan application is approved, the money is transferred to the borrower via a wire transfer to the bank account or a debit card. The customer can select the preferred transfer method during the registration process. The transfer shall take place within 2 hours after the approval of the loan.

New customers can be approved for a loan of up to 4 million VND, whereas repeated customers can receive up to 15 million VND. The final applied limit depends on the income of the applicant.

The customer can have only one active loan at a time. It is possible to apply for another loan only after fully repaying the previous one.

The application for the loan may be rejected in case the applicant does not have sufficient income, have other outstanding loans, is late for repayments or other reasons that are not compliant with the internal policies of the Loan Broker.

9.3.3. Term of the Underlying Loan

The term of the individual loans can vary from 7 to 30 days. The repayment dates of the loan are visible to the Underlying Borrower upon logging in the Lending Platform.

The client can repay the loan prior to its due date. In the event that the applicant cannot repay the loan within the set schedule, it is possible to extend the loan for additional 7, 14 or 30 days. The extension can occur for an unlimited amount of times.

In case of late payments, the credit history and the future loan approval process of the customer will be impacted. There might be debt recovery measures, penalties and even lawsuits implemented in accordance with the regulations.

9.4. REPAYMENT OF THE UNDERLYING LOAN

The customer can repay the loan by the virtual account, using e-wallet, through a bank or through a postal network. It is also possible to make repayments in cash at a bank branch.

9.5. PERSONAL DATA PROTECTION

There is no single set of laws applicable to protection of personal data in Vietnam. Rules and regulations on personal data protection are found in several laws, such as Civil Code and the Law on Cyberinformation Security.

The Loan Broker is responsible for and can demonstrate compliance with data protection key principles. The Loan Broker has full awareness and understands the rights of the data subject and knows how to provide the opportunity for the data subject to exercise its respective rights. The Loan Broker has a policy which describes the general principles of the information collected by the company, as well as the processing aspect of the personal data.

The Loan Broker has taken appropriate organizational and technical measures to protect personal data from unauthorized access, unlawful disposition, disclosure, loss, modification or destruction. These measures include:

- a. physical and logical access control;
- b. secure and encrypted communication channels;
- c. encrypted storage for files and backups;
- d. storage of data in certified data centres;
- e. control access to the office;
- f. security training of its employees.

The Loan Broker follows principles for collecting and processing of the personal data. These principles include:

- a. lawfulness, fairness and transparency principle – data is processed in a lawful, fair and transparent manner;
- b. purpose limitation principle – data is collected for specified, explicit and legitimate purposes and is not further processed in a manner that is incompatible with those purposes;
- c. data minimization principle – data is collected as long as it is adequate, relevant and limited to what is necessary in relation to the purposes for which it is processed;
- d. accuracy principle – data is accurate and up to date, when necessary;
- e. storage limitation principle – data is kept in a form which permits identification of data subjects for no longer than it is necessary for the purpose for which the data is processed;
- f. integrity and confidentiality principle – data is processed in a manner that ensures appropriate security, including protection against unauthorized or unlawful processing.

9.6. FINANCIAL INFORMATION

The financial statements of the Loan Broker are prepared in accordance with the Circular No. 133/2016/TT-BTC, which provides instructions on accounting for small and medium enterprises (SME) in Vietnam. The Loan Broker is also responsible for submitting the audited financial reports to the respective authorities.

The financial information of the Loan Broker has been audited by AS Auditing Company, a company registered in Vietnam with registration No.: 0310996715, registered address: 63A Vo Van Tan Street, Ward 6, District 3, Ho Chi Minh City, Vietnam.

The financial statements of the Loan Broker are available for inspection on the Website:

- a. audited financial statements of the Loan Broker for the financial year 2021;

The main changes in the asset side of the balance sheet of the Loan Broker since the previous year is mainly comprising of the increased receivables during 2022. The largest portion of receivables are payments that are due from the Loan Originator. It is expected that once the Loan Originator collects the consulting fees from its customers, the amount will be paid.

Looking at income statement the profitability has decrease slightly due to increased costs, however, maintaining positive net profit for the year. Capital increase by the shareholders, together with positive profitability has further strengthened the equity position of the Loan Broker.

9.7. LEGAL AND ARBITRATION PROCEEDINGS

Since the date of the Loan Broker's incorporation, the Loan Broker has not been involved in any litigation or arbitration proceedings (including any such proceedings which are pending or threatened of which the Loan Broker is aware of) which may have, or have had a significant effect on the financial position or profitability of the Loan Broker.

11.2. NOTICE

The Base Prospectus has been approved by the BoL, as competent authority under the Prospectus Regulation.

The BoL only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation.

Such approval should not be considered as an endorsement of the Issuer that is the subject of this Base Prospectus.

Investors should make their own assessment as to the suitability of investing in the Securities.

11.3. FORWARD-LOOKING STATEMENTS

The Base Prospectus contains forward-looking assumptions. All statements and assumptions other than statements of historical data included in this Base Prospectus are considered as forward-looking statements. Such statements contain known and unknown risks, uncertainty and other factors that could affect the actual results, performance or accomplishments, or the industry results to vary significantly from any potential outcomes, performance or accomplishments stated or suggested by such forward-looking statements. The forecasted events and developments mentioned in the Base Prospectus may not arise in view of the threats, uncertainties, and assumptions, thus, any forward-looking claims, while currently rational, may prove inaccurate.

As the risk factors pointed in the Base Prospectus and other factors are likely to cause real outcomes or results to vary significantly from those provided in any forward-looking statements included in this Base Prospectus, investors should not settle any reliance on these forward-looking statements. Furthermore, any forward-looking statement shall apply solely to the date on which the Base Prospectus is published. The Issuer shall not attempt to amend or revise any forward-looking statement to represent occurrences or conditions beyond the date on which the statement is published or to reflect the occurrence of unexpected events.

In the future, new factors will appear, and there is no possibility for the Issuer to foresee the occurrence of such. The Issuer cannot determine the impact of each factor on its company or business, or the degree to which any factor or combination of such can affect real outcomes and cause them to vary significantly from those specified in any forward-looking statement. Unless required by the laws and regulations, the Issuer does not accept the responsibility to amend such forward-looking statements or to conform them to potential occurrences or developments.

11.4. THIRD PARTY INFORMATION

Economic and industry data, market data and forecasts mentioned in the Base Prospectus were obtained from market research and industry publications. The data source is identified for every third-party information that has been used in this Base Prospectus.

Where the information found in this Base Prospectus has been expressly described as being derived from third party records, the Issuer agrees that the information has been correctly replicated. The Issuer is conscious and can verify that no data have been removed from documents released by the third party that would make the replicated information unreliable or misleading. Although the Issuer has no evidence to suggest that any of this information is incorrect in any material respect, the Issuer has not independently checked the competitive situation, the scale of the competition, the development of the market or any other information supplied by third parties, by industry or other publications.

11.5. FURTHER INFORMATION REGARDING THE BASE PROSPECTUS

No person shall be entitled to provide any information or make any representations other than those contained in the Base Prospectus, and such information or representations shall not be relied on, if provided or made, as allowed by or on behalf of the Issuer.

The delivery of the Base Prospectus shall not, under any circumstances, create any implication that:

- a. the information provided in the Base Prospectus is accurate at any point after the date, or after the date on which the Base Prospectus was most frequently revised or supplemented, or
- b. since the date of this Base Prospectus, or the date on which this Base Prospectus was most recently revised or updated, there has been no adverse shift in the affairs or financial condition of the Loan Originator and/or the Loan Broker, which is material in the sense of the Securities, or
- c. any other information given in relation with the issue of the Securities is accurate at any time after the date on which it is issued or, if different, the date specified in the document providing the same information, or as far as the Issuer has fulfilled its obligation to publish a supplement pursuant to Article 23 of the Prospectus Regulation.

The Securities are not appropriate for investors of all kinds. Neither this Base Prospectus nor any other information provided in connection with the Securities should be regarded as a suggestion by the to acquire any Securities.

11.6. MIFID II PRODUCT GOVERNANCE

According to the Distributor's product acceptance procedure, the target market evaluation relating to the Securities led to the conclusion that the Target Market for the Securities is retail clients, professional clients and eligible counterparties, each as defined in MiFID II; and all channels for distribution of the Securities to eligible counterparties and professional clients are appropriate.

11.7. USE OF PROCEEDS AND INTERESTS OF PERSONS INVOLVED IN THE ISSUE AND OFFER

The Issuer is a special purpose vehicle with the sole goal to facilitate the process of the issuance of the Securities.

Save for fees, if any, payable to the Distributor, and so far as the Issuer is aware, no person involved in the issue of the Securities has an interest material to the offer. The Distributor and its affiliates may in the future engage in investment brokerage transactions with and may perform other services for the Issuer and its affiliates in the ordinary course of business. The possibility of conflicts of interest between the different roles of the Distributor on one hand, and between those of the Securityholders, on the other hand, cannot be excluded.

Furthermore, given the investment activities of the Distributor, conflicts may arise between the interests of the Distributor acting in these capacities (including the business relationship with the Issuer of the Securities or possession of non-public information in relation with them) and those of the Securityholders. Finally, the activities of the Distributor with the Securities, on its proprietary account or behalf of its customers, may also have an impact on the price of these instruments and their liquidity and, thus, may be in conflict with the interests of the Securityholders.

12. TAXATION

Tax laws of the Securityholder's country of residence and of the Issuer's country of residence may differ and thus have an impact on the income that the Securityholder receives from the Securities. It is advised for the Securityholder to assess the tax liabilities arising from the acquisition, ownership and sale of the Securities.

The following is a general summary of certain tax considerations in Latvia in relation to the Securities. It is not exhaustive and does not purport to be a complete analysis of all tax consequences relating to the Securities, as well as does not take into account or discuss the tax implications of any country other than Latvia. The information provided in this section shall not be treated as legal or tax advice; prospective investors are advised to consult their own tax advisors as to the tax consequences of the subscription, ownership and disposal of the Securities applicable to their particular circumstances.

This summary is based on the laws of Latvia as in force on the date of this Base Prospectus and is subject to any change in law that may take effect after such date, provided that such changes could apply also retroactively.

Latvia has entered into a number of tax conventions on elimination of the double taxation ("DTT"), which may provide more favourable taxation regime. Therefore, if there is a valid tax convention with the country of a non-resident prospective investor, it should be also examined. The procedures for application of tax conventions are provided in the Republic of Latvia Cabinet of Ministers' Regulations No. 178 "Procedures for Application of Tax Relief Determined in International Agreements for Prevention of Double Taxation and Tax Evasion" of 30 April 2001.

12.1. TAXATION OF THE SECURITYHOLDER (INDIVIDUALS)

12.1.1. Resident Individuals

An individual will be considered as a resident of Latvia for taxation purposes, if:

- a. the individual's declared place of residence is in Latvia; or
- b. the individual stays in Latvia 183 days or more within any 12-month period, starting or ending in the taxation year; or
- c. the individual is a citizen of Latvia employed abroad by the government of Latvia.

In accordance with the Law on Personal Income Tax the income from capital, including interest, as well as income from capital gains is subject to a fixed personal income tax rate of 20%.

As a result, the Interest income from the Securities for resident individuals will be subject to 20 % personal income tax that will be withheld by the Issuer before the Interest payment is made by the Issuer to the Securityholder. For the avoidance of doubt, for the purposes of the application of the PIT, the payment of Interest is made each time when the Issuer pays the Interest to the Securityholder's investment account held with the Distributor irrespective of whether the Securityholder withdraws the respective amount or re-invests it further. The Issuer shall:

- a. inform the State Revenue Service about the amount of Interest paid and the personal income tax withheld (with respect to the Interest payments to the Securityholder) no later than the 15th date of the next calendar month following the Interest payment date;
- b. withhold and pay the personal income tax (with respect to the Interest payments to the Securityholder) to the State Revenue Service no later than the 23rd date of the next calendar month following the Interest payment date.

The capital gains from the sale of the Securities will be subject to 20% tax, but the tax would be payable by the individual him/herself.

12.1.2. Non-resident individuals

An individual will be considered as a non-resident of Latvia for taxation purposes in all cases unless he/she is a tax resident of Latvia. The taxation of non-resident individuals shall be the same as resident individuals.

In addition, non-resident individuals, who are the residents of a country with whom Latvia has entered a DTT (which is in force at the moment of the payment of the Interest) shall be able to apply the reduced rate according to the DTT, if they have submitted their residence certificate to the Issuer, which is compliant with the regulatory

requirements of Latvia. The Issuer shall have the right to request the Securityholder's to submit an updated certificate of residence if it is required for the purpose of the application of the reduced personal income tax rate.

12.2. TAXATION OF THE SECURITYHOLDER (LEGAL ENTITY)

12.2.1. Resident entities

A legal entity will be considered as a resident of Latvia for tax purposes if it is or should have been established and registered in Latvia in accordance with the laws of Latvia. This also include permanent establishments of foreign entities in Latvia.

Interest payments on the Securities and proceeds from the disposal of the Securities received by Latvian resident companies will not be subject to withholding tax in Latvia. Under the Corporate Income Tax Law retained earnings are exempt from corporate income tax and only distributions are taxed. Corporate income tax rate on gross profit distribution is 20%. Corporate income tax on net amount of profit distribution is determined by dividing net amount with a coefficient of 0.8 and applying a 20% rate (i.e., effective tax rate on net distributed profit is 25%).

12.2.2. Non-resident entities

An entity will be considered as a non-resident of Latvia for taxation purposes in all cases unless it is a tax resident of Latvia.

In accordance with the Corporate Income Tax Law the interest income and capital gains from the sale of the Securities for non-resident entities will not be taxable in Latvia.

12.3. TAXATION OF RESIDENTS OF LOW OR NO TAX JURISDICTIONS

In general, payments (including interest payments) to non-residents located, registered or incorporated in a no-tax or low-tax country or territory as defined in the Regulations of the Cabinet of Ministers No.333 "List of low-tax or no-tax countries and territories" of 27 June 2023 are subject to withholding tax of 20% if the payer is a Latvian legal entity having obligation to withhold tax.

13. TERMS AND CONDITIONS OF THE SECURITIES

Under the Programme described in the Base Prospectus, the Issuer may periodically issue the Securities on the Terms and Conditions of the Securities set out herein (“**Terms and Conditions of the Securities**”), as completed by Final Terms. The relevant final terms of any Series of the Securities are set out in the Final Terms which complete these Terms and Conditions of the Securities. References to the “**relevant Final Terms**” are to the Final Terms (or the relevant provisions thereof).

A Securityholder can invest in one or several Securities by purchasing them at Issue Price. The payments to the Securityholder are distributed proportionally to their respective share of the Aggregate Nominal Amount of the Series;

Series:

The Securities will be issued periodically in several Series having different issue dates. Each Series shall have a unique ISIN number, its own Final Terms and be linked to a specific Loan Receivable;

Activities with the Loan Receivables:

Subject to the Lender's written approval, the Loan Originator has the right to extend the repayment of the Loan for a maximum of four (4) times for a three (3) months period each (in total for 12 (twelve) months) without a prior consent of the Issuer, the Distributor or any other party. The said extensions shall extend the Maturity of the Securities that are backed by the corresponding Loan Receivables accordingly;

The Lender's representations:

The Lender:

- a. has not alienated, pledged to third parties or otherwise encumbered the Loan Receivables;
- b. is not responsible for the delay of the due date set out in the Loan Agreement by the Loan Originator;
- c. shall not be liable to the Issuer nor to any other third party in the event the Loan Originator fails to complete the Loan Agreement in full or any part thereof.

Redemption Rights:

The Issuer is entitled to redeem the Securities from the Securityholder at any point in time at Early Redemption Amount. In such case the Distributor shall indicate this information in the Securityholder's Profile.

13.2. CONSENT OF THE SECURITYHOLDER

The Securityholder has notice of, and has accepted, the terms and conditions of the Base Prospectus, the Final Terms and the Assignment Agreement. It is hereby expressly provided that, and the Securityholder is deemed to have accepted that:

- a. the Issuer makes no representation or warranty in respect of, or shall at any time have no responsibility for liability or obligation in respect of the performance and observance by the Loan Originator of its obligations with respect to the Loan Receivables under the Assignment Agreement or the recoverability of any sum of principal or interest (or any additional amounts) due from the Loan Originator under the Assignment Agreement;
- b. the Issuer shall not at any time have any responsibility for, or obligation or liability in respect of the condition (financial or otherwise), creditworthiness, affairs, status, nature or prospects of the Loan Originator;
- c. the Issuer shall not at any time be liable for any representation or warranty or any act, default or omission of the Loan Originator with respect to the Loan Receivable under or in respect of the Assignment Agreement;
- d. the financial servicing and performance of the terms and conditions of the Securities depend solely upon performance by the Loan Originator of its obligations with respect to the Loan Receivables under the Loan Agreement and the Assignment Agreement respectively and its covenant to make payments with respect to the Loan Receivables under the Loan Agreement and the Assignment Agreement respectively and its credit and financial standing. The Loan Originator has represented and warranted to the Issuer that the Loan Receivables constitute a legal, valid and binding obligation of the Loan Originator;
- e. the Issuer shall be entitled to rely on documents signed by the authorized persons of the Loan Originator (and, where applicable, certification by third parties) as a means of monitoring whether the Loan Originator is complying with its obligations with respect to the Loan Receivables under the Assignment Agreement and shall not otherwise be responsible for investigating any aspect of the Loan Originator's performance in relation thereto;
- f. the Issuer shall not be required to risk its own funds or otherwise incur any financial liability in the performance of its obligations or duties or the exercise of any right, authority or discretion pursuant to terms and conditions set out in the Base Prospectus until it has received from the Loan Originator the funds or adequate insurance against, and/or security and/or prefunding that are necessary to cover the costs in connection with such performance or exercise, or has been (in its sole discretion) sufficiently assured that it will receive such funds;
- g. the Issuer will not be liable for any shortfall in respect of amounts payable by or resulting from any withholding or deduction or for any payment on account of tax or duties required to be made by the Issuer on or in relation to any sum received by it with respect to the Loan Receivables under the Assignment Agreement which may affect payments made by the Loan Originator with respect to the Loan Receivables under the Assignment Agreement, save to the extent that it has received additional amounts with respect to the Loan Receivables under the Assignment Agreement in respect of such withholding or deduction or payment. The Issuer shall, furthermore, not be obliged to take any actions or measures as regards such deduction or withholding or payment, other than those set out in the Assignment Agreement.

The obligations of the Issuer in respect of the Securities rank *pari passu* without any preference among themselves, as well as with respect to all general, direct, unconditional, unsubordinated and unsecured obligations of the Issuer and without any preference among themselves and at least *pari passu* with any present or future obligation.

No proprietary or other direct interest in the Issuer's right under or in respect of the Assignment Agreement and the corresponding Loan Receivables exists for the benefit of the Securityholder. No Securityholder will have any entitlement to enforce the Assignment Agreement or direct recourse to the Loan Originator except through action

by the Distributor pursuant to the relevant authority granted to the Distributor in the Client Agreement. The Issuer shall not be required to take any step, action or proceedings to enforce payment with respect to the Loan Receivables under the Assignment Agreement unless it has been indemnified and/or secured and/or prefunded by the Securityholder to its satisfaction.

The obligations of the Issuer under the Securities shall be solely to make payments of amounts in aggregate equivalent to each sum received by or for the account of the Issuer¹ from the Loan Originator in respect of principal, interest or any other amounts relating to the Loan Receivables. Accordingly, all payments to be made by the Issuer under the Securities will be made only from and to the extent of such sums received or recovered by or on behalf of the Issuer. The Securityholder shall look solely to such sums for payments to be made by the Issuer under the Securities as the obligation of the Issuer to make payments in respect of the Securities will be limited to such sums. The Securityholder will have no further recourse to the Issuer or any of the Issuer's other assets (including the Issuer's rights with respect to any Loan Receivables relating to any other Series of Securities) in respect thereof. In the event that the amount due and payable by the Issuer under the Securities exceeds the sums received or recovered, the right of any person to claim payment of any amount exceeding such sums shall be extinguished, and the Securityholder may take no further action to recover such amounts.

The Securityholder must therefore rely solely and exclusively upon the covenant to pay under the Assignment Agreement and the credit and financial standing of the Loan Originator, and no other assets of the Issuer will be available to the Securityholder.

13.3. PURPOSE OF THE ISSUE OF THE SECURITIES

The sole purpose of the issue of the Securities is to fund the acquisition of the Loan Receivables. The Securities constitute the obligation of the Issuer to apply the proceeds from the issue of the Securities solely for financing the acquisition and to account to the Securityholder for an amount equivalent to sums of principal, interest and additional amounts (if any) actually received by or for the account of the Issuer in accordance with the Assignment Agreement.

13.4. THE LOAN RECEIVABLES

The Securities shall be secured by the Loan Receivables payable by the Loan Originator. Prior to the issuance of each Series of Securities the Issuer shall purchase the Loan Receivables, which represent the claim rights towards the Loan Originator for the repayment of the Loan in such amount that fully corresponds to the amount of the Securities that are to be issued within the particular Series of Securities.

The Loan Receivables shall serve as the assets that are backing the Securities. The Loan Originator shall never borrow more than 95% of the outstanding amount of the value of the Underlying Portfolio. As a result, at least 5% of the Underlying Portfolio shall be financed using its own funds. This is done to ensure that the Loan Originator's interests are aligned with the interests of the Securityholder.

The Loan Receivables are governed by the laws of Latvia and any disputes arising in relation to Loan Receivables shall be settled exclusively by the courts of Latvia in accordance with laws of Latvia.

13.4.1. Securities backed by Loan Receivables

All Securities that are linked to a certain Loan Receivable are equal and have the same ISIN, cash flow, Nominal Value, Maturity Date as well as other characteristics and are replaceable between each other. If two or more Securityholders have purchased Securities that are linked to the same Loan Receivables, all of them shall receive the same cash flows proportional to their share (proportion) of the number of the Securities purchased, because each Security represents a relatively small portion of the Loan Receivables. As a result, the Securities are linked to individual Loan Receivable.

¹ After the deduction or withholding of such taxes or duties as may be required to be made by the Issuer by law in respect of such sum or in respect of the Securities.

13.4.2. Link between the Security and the corresponding Loan Receivable

Certain characteristics and behaviour of the Securities like start date and end date, as well as cash flows shall be linked to the Loan Receivable. If the Loan Receivable is repaid in full or in part, the same is done by the Issuer with respect to the Securities that are linked to the corresponding Loan Receivable. The same applies to a delay of the repayment of the Securities. If the repayments of the Loan Receivable are delayed or extended, then a corresponding delay or extension of the repayment of the Securities takes place.

13.5. TYPE, CLASS, FORM, DENOMINATION, REGISTER, TITLE AND TRANSFERS

13.5.1. Type and class

The Securities are asset-backed debt securities and are not divided into classes.

13.5.2. Form

The Securities will be unlisted and traded over the counter by the Distributor on the Website and issued in registered and book-entry form. The register of transactions is kept by the Distributor.

13.5.3. Denomination

The aggregate amount of the Securities issued within the scope of this Base Prospectus shall not exceed EUR 10 000 000 at any given time. The Securities shall be issued and sold to the Securityholder at the Issue Price that is equal to the Nominal Value, which is EUR 1.00, unless stated otherwise in the Final Terms. A single Security cannot be split among several Securityholders and can be owned by a single Securityholder only and, thus, the minimum amount to invest is EUR 1.00. There are no limitations on the amount of the Securities that a single Securityholder can have.

13.5.4. Register

The Distributor shall record in the names and addresses of the holders of the Securities, particulars of the Securities and all transfers and redemptions thereof in its records. In these Terms and Conditions of the Securities, the "holder" of a Security means the person in whose name such Security is for the time being registered in the relevant Register.

13.5.5. Title

The Securityholder shall (except as otherwise required by law) be treated as the absolute owner of such Security for all purposes. A transfer of the Securities shall be executed without charge by or on behalf of the Issuer, but upon the payment by the relevant Securityholder of any tax or other governmental charges which may be imposed in relation to it.

13.5.6. Transfers

The Securities may be transferred among different Securityholders on the Platform after their Issue Date. Such sale of Securities shall be executed based on a *bulletin board* principle, where selling and purchasing interests of the Securityholder are published. The orders of the Securityholder are not matched by the Distributor.

13.6. INTEREST RATE

The Interest rate of the Security shall be fixed and independent from the interest rates of the Loan Receivables and shall be defined within the relevant Final Terms. Each Security bears an Annual Interest Rate (as defined in the Final Terms) on its outstanding principal amount, which may differ from, but not be higher than the annual interest rate of the relevant Loan Receivables. The Interest on the Securities is paid by the Issuer to the Securityholder in the following events (the "Interest Payment Date"):

- a. according to Schedule (scheduled amounts);
- b. in case of early repayment (proportionate to the repaid amount).

The payment dates of interest to the Securityholder are structured in a way to mirror the scheduled interest of the Loan Receivables to which the particular Security is linked to. Early partial and early full repayment of the principal of the Loan Receivables can trigger a corresponding repayment of the Interest on the Securities.

13.6.1. Interest payment dates

With respect to business days no adjustments are made. Cash flows that fall due on holidays will be paid on previous business day for the actual usage time, which will be compensated in the next month.

Up-to-date individual payment schedules of the Loan Receivables are available on the Securityholder's profiles on the Website.

13.6.2. Accrual of Interest and calculations

Interest shall accrue on the unpaid principal amount of the Security up to, but excluding, the due date for redemption in the manner provided in the Final Terms of the particular Security.

13.7. MATURITY AND REDEMPTION

13.7.1. Maturity

The Maturity Dates (as defined in the Final Terms) of the Securities are structured in a way to match the maturity of the Loan Receivable to which the Security is linked to ensure that the Securities mirror the behaviour of the Loan Receivables.

The maturity of the Loan Receivables can change over time, if the Loan Originator uses the option to extend the Loan. As a result, the term of the Securities might change over time.

13.7.2. Scheduled Redemption

The repayment of the Securities shall be made subject to the repayment of the relevant Loan Receivable to which the Security is linked to. Whenever the Issuer receives a scheduled repayment of the principal of any of the Loan Receivables, the amount shall be distributed equally among all the Securities backed by the corresponding Loan Receivable.

13.7.3. Early Mandatory Redemption

The Security part related to the Loan shall be repaid in full or in part (as might be the case), if (i) the Loan Receivables cease to exist, (ii) an early full or partial repayment is made by the Loan Originator.

13.7.4. Early Voluntary Redemption

The Issuer may redeem all or some of the outstanding Securities in full or in part before the Maturity Date at the Early Redemption Amount. The Issuer must not give a notice to the Securityholder.

13.7.5. Redemption at the option of the Securityholder

Redemption at the option of the Securityholder is not applicable.

13.8. PAYMENTS AND CASH FLOWS

The uninvested amounts of the investors shall be held in a separate bank account of the Distributor. Upon the sale of the Security, the relevant amount of the funds of the investor shall be transferred to the Issuer or to the person indicated by the Issuer, in particular to the Lender as the Issuer is obliged to transfer the funds to the Lender as per the Assignment Agreement. The Lender then shall use the funds to distribute the Loan to the Loan Originator.

Payments in respect of the repayment of the Securities shall be made only in such amounts that are equivalent to the sums actually paid by the Loan Originator by way of principal or additional amounts to the Loan Receivables, and will be made pro-rata among all the Securityholders, on the date of, and in the currency of, and subject to

the conditions attaching to, the corresponding repayment by the Loan Originator in accordance with the Loan Agreement and the Assignment Agreement. If the Loan Originator fails to make the payment, the Issuer shall not be obliged to make a corresponding repayment of the Securities until it has received the funds from the Loan Originator.

The Issuer shall not be liable to make any payment in respect of the Securities other than as expressly provided herein. The Issuer shall not be under any obligation to exercise in favour of the Securityholder any rights of set-off or of banker's lien or to combine accounts or counterclaim that may arise out of other transactions between the Issuer, the Loan Originator and the Underlying Borrower or any affiliate.

The Distributor shall act as a payment agent on behalf of the Lender and the Issuer to manage the cash flow and payments between the Issuer, the Lender and the Loan Originator subject to such arrangements being supported by the involved banks.

All such payments, where the Distributor acts as a payment agent shall be executed by the Distributor immediately, but no later than within 3 business days after the day of receiving the incoming funds (unless agreed otherwise by the parties) to make the corresponding outgoing payment, where the following order takes place:

- a. Funds from the investors are collected prior the purchase of the Securities;
- b. Issue Price is transferred to the Issuer after the Securities are issued;
- c. Assignment Fee is transferred to the Lender after the Issue Price is received by the Issuer;
- d. Loan is disbursed to the Loan Originator after the Assignment Fee is received by the Lender;
- e. Loan Receivables are transferred to the Issuer after the Loan is repaid by the Loan Originator; and
- f. The Securities are repaid to the Securityholders after the Loan Receivables are received by the Issuer.

13.8.1. Currency

Securities shall be issued and all payments on the Securities shall be made by the Issuer in EUR.

13.8.2. Payments

All payments on the Securities shall be made by the Issuer to the Securityholder by way of a bank transfer from the Issuer to the Distributor, who maintains separate client account and the register and holds the funds on behalf of the Securityholder. No direct payments between the Issuer and the Securityholders shall take place.

13.8.3. Issuer's Obligations arising from the Securities

In each case where amounts of principal, interest and additional amounts (if any) are stated to be payable in respect of a Series of Securities, the Issuer has an obligation to make any such payment to the Securityholder only if and in such amount as the corresponding payment has been received and retained (net of tax and all other deductions whatsoever) by the Issuer from the Loan Receivables. The Issuer will have no other financial obligation under the Securities.

Except as set forth herein, payments in respect of the Securities will be made without any deduction or withholding for, or on account of, the taxes of any relevant jurisdiction, except as required by the laws of Latvia (*see Section 12 "TAXATION" herein*).

13.9. SUBSCRIPTION AND SALE

13.9.1. Subscription

The Distributor maintains an investment platform for (i) the Issuer to offer and sell the Securities to the Securityholders pursuant to the Distribution Agreement and (ii) the Securityholders to purchase, hold and sell the Securities on the Platform to other Securityholders pursuant to the Client Agreement.

The investors can subscribe to a specific Series until it is fully subscribed (i.e., the subscriptions have reached the Aggregate Nominal Value) by reserving the desired amount of the Securities on the Platform. At this point the investor's funds shall be reserved (in full amount with respect to the reserved amount) by the Distributor until the Securities are issued and the funds released to the Issuer. Any transfer of funds between the parties shall take place by way of a bank transfer.

The subscription period for each Series is set for the same calendar date when it becomes available for subscription. However, if the Series are not fully subscribed during this calendar day, then only the subscribed part is issued to the investors at 00:00:01 GMT+2 (during standard time) of the next calendar day. The remaining amount of the Aggregate Nominal Value remains available at the next calendar day and this cycle continues until the specific Series are fully subscribed. The results of the offer (including the amount of the Securities allotted) shall be made available to the investors in their accounts on the Platform after the end of the subscription period. No dealing may begin before notification is made.

Once an investor has subscribed to a specific amount of the Securities, the available cash balance of the investor is automatically reduced, and there is no possibility for the investor to decrease the subscription amount.

The Distributor or the Issuer can at any time reduce or cancel the subscription to the Series without coordinating it with the investors of the Distributor or the Securityholders. In this case the investors of the Distributor or the Securityholder are refunded in the full amount paid for the Securities.

Subject to the terms and conditions contained in the Distribution Agreement between the Issuer, the Lender and the Distributor, the Securities will be periodically offered by the Issuer to the investors on the Platform. Any agreement for the sale of Securities will, inter alia, make provision for:

- a. the form and terms and conditions of the relevant Securities;
- b. whether the placement of the Securities is available only over-the-counter on the Website;
- c. the price at which such Securities will be offered by the Distributor;
- d. the commissions or other agreed deductibles (if any) which are payable or allowable by the Issuer in respect of such subscription and;
- e. the form of any indemnity to the Distributor against certain liabilities in connection with the offer and sale of the relevant Securities.

The Securities may be resold at prevailing market prices, or at prices related thereto, at the time of such resale on the Platform. The Distribution Agreement entitles the Distributor to terminate any agreement that they make to subscribe for the Securities in certain circumstances prior to payment for such Securities being made to the Issuer. There are no pre-emption rights linked to the Series and the Securities.

13.9.2. Role and Liability of the Distributor

The Client Agreement contains provisions for the indemnification of the Distributor and for its relief from responsibility in certain circumstances, including provisions relieving it from taking proceedings to enforce payment unless indemnified and/or secured and/or prefunded to its satisfaction, and to be paid its costs and expenses in priority to the claims of the Securityholder. In addition, the Distributor is entitled to enter into business transactions with the Issuer, the Loan Originator and any entity relating to the Issuer, the Loan Originator without accounting for any profit and obtaining any consent from the Securityholder.

The Distributor shall have regard to the general interests of the Securityholder as a class but shall not have regard to any interests arising from circumstances particular to individual Securityholder. Further, the Distributor shall not have regard to the consequences of any such exercise for individual Securityholders resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory or any political sub-division thereof. The Distributor shall not be entitled to require, nor shall any Securityholder be entitled to claim, from the Issuer, the Distributor or any other person any indemnification or payment in respect of any tax consequence of any such exercise upon individual Securityholders except to the extent already provided for in this Base Prospectus.

13.9.3. Fees

The Distributor shall receive a fee for its services from the Loan Originator as well as is entitled to any other remuneration for its work and services provided to other parties. The fee paid by the Loan Originator to the Distributor for its services with respect to the issue of the Securities shall be expressed as a fixed percentage rate from the total outstanding amount of the Securities issued by the Issuer.

13.9.4. Prescription

Claims against the Issuer for payment in respect of the Securities shall be prescribed and become void unless made within three (3) years as from the date on which payment in respect thereof first becomes due.

13.10. ISSUER'S COVENANTS

So long as any of the Securities remain outstanding, the Issuer will not, without the prior written consent of the Distributor, agree to any amendments to or any modification of, or waiver of the terms of the Assignment Agreement. Any such amendment, modification or waiver made with the consent of the Distributor shall be binding on the Securityholder and any such amendment or modification shall be notified by the Issuer to the Securityholder.

Save as provided above, so long as any Security remains outstanding, the Issuer shall not, *inter alia*:

- a. incur any other indebtedness for borrowed money (other than issuing further Securities and/or creating or incurring further obligations relating to such Securities and issues of Securities on a limited recourse basis for the sole purpose of acquiring the Loan Receivables);
- b. engage in any business (other than entering into the Programme and issuing Securities thereunder or on a standalone basis from time to time for the sole purpose of acquiring the Loan Receivables in accordance with the Assignment Agreement and its appendixes, entering into related agreements and transactions (including derivatives on a limited recourse basis) and performing any act incidental or necessary in connection with any of the foregoing);
- c. declare any dividends;
- d. have any subsidiaries;
- e. purchase, own, lease or otherwise acquire any real property (including office premises or like facilities);
- f. consolidate or merge with any other person;
- g. convey or transfer its properties or assets substantially as an entity to any person (otherwise than as contemplated in these Conditions);
- h. issue any shares (other than those existing at the date of the Base Prospectus);
- i. give any guarantee or assume any other liability; or
- j. subject to the laws of Latvia, petition for any winding-up or bankruptcy.

13.11. FURTHER ISSUES

The Issuer reserves the right from time to time without the consent of the Securityholder to create and issue further Series (or batches of existing Series) of Securities within the scope of this Base Prospectus, as well as other prospectuses confirmed by the BoL in the future. Further Series of Securities (or batches of existing Series) within the scope of this Base Prospectus will:

- a. be equivalent and replaceable with respect to the Securities of that existing Series;
- b. have the same terms and conditions as the Securities of that Series except for the Aggregate Nominal Amount, the Issue Date, the Issue Price, the Interest Accrual Periods, the first Interest Payment Date and the first Redemption Date; and
- c. be consolidated and form a single Series with that existing Series of Securities, and references in the terms and conditions to the Securities shall be construed accordingly.

The right of the Issuer from time to time without the consent of the Securityholder to create and issue further Series, includes also the Issuer's right to issue other instruments according to the prospectuses and transaction documents for other loan originators.

13.12. NOTICES

Any notice or other communication to be made under or in connection with the Securities to the Securityholder shall be published on the Website and/or otherwise in accordance with the provisions of the laws of Latvia. A

notice will be deemed to be made on the day of its publication (in case of more than one publication, on the day of the first publication).

13.13. MEETINGS OF THE SECURITYHOLDERS

The issuance of Securities described in this Base Prospectus does not provide for the right of the Securityholders to establish a representative body nor does it authorize an organization or a person to represent all or part of the interests of the Securityholders, however, such rights, if executed, are subject to the respective legal framework set forth in the laws of Latvia.

13.14. TAXATION

All payments in respect of the Securities by the Issuer shall be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature, unless the withholding or deduction of the taxes is required by the laws of Latvia. In such case the Issuer shall withhold the tax from the payment to the Securityholder and pay the amount net of tax.

13.15. GOVERNING LAW AND DISPUTE SETTLEMENT

13.15.1. Governing law

The Securities are created and issued in accordance with the laws of Latvia.

13.15.2. Dispute settlement

Any disputes relating to or arising in relation to the Securities shall be settled solely by the courts of Latvia of competent jurisdiction in accordance with the laws of Latvia.

13.16. RIGHTS ATTACHED TO THE SECURITIES

The Securities will bear interest from (and including) the day the Securityholder buys the specific Security at a rate specified in the Final Terms. The interest is payable on a monthly basis considering these Terms and Conditions of the Securities. The Securityholder has the right to sell the security to other Securityholders on the Platform considering the Terms and Conditions of the Securities.

13.17. DEFINITIONS
